

Paper Petition Details

Canada Road Parking Issues

We the undersigned, residents of Canada Road are facing severe health & safety issues and parking problems because of the commercial activities in our neighbourhood. The car repairs and MOT business recently set up on the railways property at the end of the road is causing lots of trouble for the residents in the following areas:

- Occupy parking spaces with their workers and customers cars,
- driving at high speed up and down in this small cul-de-sac road creating huge safety issues for adults and especially young children who cannot move safely in their own previously quiet and safe neighbourhood,
- and they run their business 7 days a week in unsociable hours well beyond normal UK business hours, there is business activity going on past 9pm on many days, giving residents no respite at all.

We are making a formal complaint that this business should be moved from this area as this is a small and already congested residential area which cannot support a commercial business activity of this type or their activities be strictly controlled so they park all theirs and customers cars inside their premises, adhere to residential area speeding limits and operate in normal UK business hours of 9am – 5.30pm Monday - Friday, so we urge the relevant Slough Borough Council departments to take immediate action on this issue.

This petition was received on 20th December, 2017.

This petition was passed to the Team Leader, Parking Services on 21st December, 2017.

This petition was responded to by the Team Leader, Parking Services on 15th January, 2018.

Council Response

I am writing to you in response to your petition regarding the health and safety and parking issues on Canada Road.

With regards to the parking issues that have been raised, I can confirm we will be going out to consultation at the end of this week to help introduce a residents permit scheme on Canada Road and the surrounding roads. If implemented, this will assist with the parking problems you are currently facing.

Furthermore I have liaised with our Planning Enforcement Team on the health and safety matters and unfortunately they are unable to take any action as there are no planning conditions attached to the permission that has been obtained by this local business.

If you have any further questions regarding this then please do not hesitate to contact me.
