5. **Supporting Information**

5.1 The Health Scrutiny Disability Task and Finish group provided a set of recommendations (see Appendix A) for council officers to implement.

5.2 Updates on the progress of the implementation of these recommendations were provided in written format to the Health Scrutiny Panel at the meeting on the 20th November. At this meeting, members of the panel expressed concerns that council officers were not doing enough to implement the recommendations in the desired time frame. During discussions of the work programme, the panel requested a verbal update on progress from key council officers. In particular, the panel requested to speak to relevant officers from the planning, licensing, parking and transport teams.

5.3 Officers from the relevant teams have been requested to provide information relating to their progress on implementing these recommendations. This information, where provided, can be found in Appendix Two.

5.4 The relevant officers have been requested to attend the meeting in person, in order to present their update on progress, and take questions from members of the panel.

6. **Conclusion**
