PREDETERMINATION/PREDISPOSITION - GUIDANCE

The Council often has to make controversial decisions that affect people adversely and this can place individual members in a difficult position. They are expected to represent the interests of their constituents and political party and have strong views but it is also a well established legal principle that members who make these decisions must not be biased nor must they have pre-determined the outcome of the decision. This is especially so in “quasi judicial” decisions in planning and licensing committees. This Note seeks to provide guidance on what is legally permissible and when members may participate in decisions. It should be read alongside the Code of Conduct.

Predisposition

Predisposition is lawful. Members may have strong views on a proposed decision, and may have expressed those views in public, and still participate in a decision. This will include political views and manifesto commitments. The key issue is that the member ensures that their predisposition does not prevent them from consideration of all the other factors that are relevant to a decision, such as committee reports, supporting documents and the views of objectors. In other words, the member retains an “open mind”.

Section 25 of the Localism Act 2011 confirms this position by providing that a decision will not be unlawful because of an allegation of bias or pre-determination “just because” a member has done anything that would indicate what view they may take in relation to a matter relevant to a decision. However, if a member has done something more than indicate a view on a decision, this may be unlawful bias or predetermination so it is important that advice is sought where this may be the case.

Pre-determination / Bias

Pre-determination and bias are unlawful and can make a decision unlawful. Predetermination means having a “closed mind”. In other words, a member has made his/her mind up on a decision before considering or hearing all the relevant evidence. Bias can also arise from a member’s relationships or interests, as well as their state of mind. The Code of Conduct’s requirement to declare interests and withdraw from meetings prevents most obvious forms of bias, e.g. not deciding your own planning application. However, members may also consider that a “non-pecuniary interest” under the Code also gives rise to a risk of what is called apparent bias. The legal test is: “whether the fair-minded and informed observer, having considered the facts, would conclude that there was a real possibility that the Committee was biased’. A fair minded observer takes an objective and balanced view of the situation but Members who think that they have a relationship or interest that may raise a possibility of bias, should seek advice.

This is a complex area and this note should be read as general guidance only. Members who need advice on individual decisions, should contact the Monitoring Officer.

PART 1

7. Declarations of Interest

No interests were declared.

8. Minutes of the Last Meeting held on 30th May 2024

Resolved – That the minutes of the meeting of the committee held on 30th May 2024 be approved as a correct record.

9. Guidance on Predetermination/ Predisposition - To Note

Members confirmed that they had read and understood the guidance on predetermination and predisposition.

10. Air Quality Action Plan 2024-2028

The Committee received details of a report setting out the approval of the Air Quality Action Plan (AQAP) (2024-2028). The production of the AQAP was a statutory requirement of local authorities which have Air Quality Management Areas (AQMAs) within their borough, under Part IV of the Environment Act 1995 (amended 2021). The AQAP sets out the actions which the local authority was going to take to improve air quality in the borough.

The Group Manager (Carbon & Sustainability) highlighted that the AQAP addressed air pollution in the borough, focusing on Slough's five AQMAs. The plan had been designed to also address air pollution outside of these areas, as many measures proposed would help to reduce pollution borough wide.

It was noted that air quality in Slough had been gradually improving over the years. In 2020, the Covid-19 pandemic brought widespread reductions in traffic as the population were instructed to stay at home, which resulted in a significant drop in NO₂ concentrations into 2021. The first full year of data without Covid-19 impact is 2022 as defined by Defra, however the monitoring data indicates that the pandemic may have had prolonged positive impacts on air quality beyond this.

As part of the AQAP development, source apportionment modelling was undertaken to understand the sources of air pollution in Slough. It was noted that diesel cars overall were the largest contributor towards NO₂ in the

Licensing Committee - 30.10.24

borough. As such, many of the measures within the action plan were tailored towards reducing emissions from road traffic.

Members were informed that Slough had a number of specific challenges which exacerbated and sustained air quality issues in the borough, as detailed within the report. The development of the AQAP had followed a rigorous process, as outlined by Defra within their Technical Guidance and the process was supported by a steering group of council representatives which was initiated in July 2023 as well as a public consultation. The consultation feedback would be used to inform the Implementation Plan, therefore ensuring that the main priorities and key areas of concern raised by respondents were addressed. The action plan would be delivered collaboratively across council departments and overseen by a newly formed public health led working group.

A number of points were raised in the ensuing discussion, which included the reasons why some of the air quality limits had been breached last year. Officers explained the various contributory factors including meteorological conditions and traffic levels. Members were supportive in principle of further measures being taken to improve air quality as it was a significant public health issue. Several specific issues were raised including the use of wood burning fires and steps that could be taken to reduce idling vehicles.

The Committee welcomed the comprehensive report and AQAP and agreed that it be recommended to Council for adoption.

Recommendation to Council –

That the Air Quality Action Plan (2024-2028) as set out in Appendix A be approved.

11. Review of Statement of Licensing Policy

The Trading Standards and Licensing Manager introduced the report, reminding the Committee that the Licensing Act 2003 required each local authority to prepare and publish a Statement of Licensing Policy. The policy statement set out how the authority intended to approach and exercise its licensing responsibilities and in particular how it would promote the four Licensing Objectives. The Committee was being asked to recommend approval of the statement to full Council.

It was noted that the current policy for the period 2019 to 2024 had been approved in February 2019 and was due to expire. Each authority was required to keep the statement of policy under review and update it no less than every five years.

Public consultation on the revised draft policy commenced on 17 September 2024 and concluded on 3 October 2024. Members were informed that there had been a very low response to the consultation, as it was generally realised that the discretion of the Council in reviewing the Policy was limited as the

Licensing Committee - 30.10.24

Licensing Act 2003, the Regulations under the Act and the Government Guidance closely prescribed how licensing authorities carried out their licensing functions. A summary of the minor changes, deletions and additions to the revised policy document were detailed as set out in Appendix A to the report.

Members of the committee expressed concerns about the effectiveness of the co-ordination between some Council departments, particularly licensing and planning, which was essential to ensure effective enforcement. A number of questions that were asked about the respective processes and legal framework for planning and licensing, particularly whether the statement of licensing policy could be strengthened. Members queried whether the policy could be tightened up so that when a licence was granted it would be subject to planning. It was recognised that the regimes were separate and there was an obligation to adhere to both any planning and licensing conditions. The planning department were a statutory consultee to a licensing application and could make representations.

Members asked that consideration be given to further practical and proactive steps the Council could take to ensure consistency between licensing and planning conditions before they were approved, and to strengthen enforcement in instances where licensing or planning conditions were breached. Officers were asked to carry out benchmarking of other relevant authorities licensing policies to ascertain whether any additional provisions or good practice could be incorporated into Slough's policy in the future which would improve the coordination and consistency of licensing and planning conditions. A report was requested to be brought back to a future meeting and it would be an option to review and amend the statement earlier than the five years if necessary.

The Committee discussed the process by which councillors were notified of licensing applications in their ward. It was responded that all applications were published on the Council website. Members requested that the licensing department in future notify councillors of applications for alcohol and late night refreshment licences in their ward. Other issues discussed included the processes for the licensing of Houses of Multiple Occupation (HMOs); and whether consideration had been given to any implications arising from Martyn's Law which related to the new duties on venues to improve public safety following the Manchester Areas terrorist attack in 2017.

At the conclusion of the discussion, the Committee agreed to recommend approval of the Statement of Licensing Policy to full Council.

Recommended to Council –

That the draft revised Statement of Licensing Policy 2024-2029 be adopted as the Council's Licensing Policy.

Licensing Committee - 30.10.24

12. Members Attendance Record 2024/25

Resolved – That the record of Members' attendance for the 2024/25 municipal year be noted.

13. Date of Next Meeting - 5th February 2025

The date of the next scheduled meeting was confirmed as 5th February 2025.

Date:	5 February 2025
Subject:	Gambling Act 2005 – Review of Statement of Gambling Licensing policy 2025 – 2028

Contact Officer:	Russell Denney-Clarke – Licensing Manager
Ward(s):	All
Exempt:	NO
Appendices:	Appendix A – List of Consultees Appendix B - The Lotteries Council email response Appendix C – Draft Statement of Gambling Licensing policy 2025 – 2028

1. Summary and Recommendations

- 1.1 This report sets out to advise members on the results of the consultation on the review of the Council’s Gambling Act 2005 Statement of Principles, commonly known as a policy statement, and to recommend for approval the revised Statement of Gambling Licensing Principles for the period 2025-2028.

Recommendations:

- 1.2 Committee is asked to: Recommend to Full Council that the draft revised Statement of Gambling Licensing Policy 2025-2028 is adopted as the Council’s Gambling Licensing Policy (the “**Policy**”).
- 1.3 Reason: The review of the Statement of Gambling Licensing policy under the Gambling Act 2005 (the “**Act**”) is a statutory requirement. The Act requires each licensing authority to prepare and publish a statement of policy. The policy sets out how the authority intends to approach its licensing responsibilities and in particular how it intends to promote the three licensing objectives.
- 1.4 Each licensing authority is required to keep its statement of policy under review, to update it no less than every 3 years and make any revisions it considers appropriate.

Commissioner Review

Commissioners have reviewed the report and made no comments.

2. Report

Introductory paragraph

2.1 The Act imposes a duty on the Council, as the licensing authority, to carry out its functions under the Act with a view to promoting the three licensing objectives, namely:

- Preventing gambling from being a source of crime or disorder, being associated with crime or disorder, or being used to support crime.
- Ensuring that gambling is conducted in a fair and open way.
- Protecting children and other vulnerable persons from being harmed or exploited by gambling.

2.2 Each of these three licensing objectives is of paramount and equal importance.

2.3 The Council's wellbeing priorities:

Priorities:

1. Protecting vulnerable children
2. Increasing life expectancy by focusing on inequalities
3. Improving mental health and wellbeing

Options considered

2.4 The Act requires the Council to publish its statement of gambling licensing policy not less than every 3 years since the date of the previous policy. Therefore, to ensure compliance with the Act, other options are not recommended.

2.5 Consideration has been given to how the decision sought will help the Council meets its vision and corporate priorities, however the nature of the policy is outside the scope of these priorities in that it is a legal requirement for the Council to have and revise this statement of policy under the Act. The policy does cover the protection of children and vulnerable people from harm as one of the three licensing objectives that licensing authorities are required to consider under the Act.

Background

2.6 The Act placed the responsibility for the regulation of gambling on the Gambling Commission, and local authorities. In brief, the function of the Gambling Commission is to regulate the operators of gambling premises and to issue codes of practice and guidance. The functions of the Council are to:

- license premises for gambling activities;
- consider notices for temporary use of premises for gambling;
- grant permits for gaming and gaming machines in clubs and minors welfare institutes;
- regulate gaming and gaming machines in alcohol licensed premises;
- grant permits to family entertainment centres for the use of certain lower stake gaming machines;
- grant permits for prize gaming;
- consider occasional use notices for betting at tracks; and
- register small society lotteries.

The Council is required under the Act to put in place a policy, which is called a Statement of Gambling Licensing policy, which they propose to apply when exercising their functions under the Act. As stated earlier, the Act requires that the policy is reviewed every 3 years.

- 2.7 The policy has been reviewed and has undergone the statutory consultation. The revised policy is in accordance with the Gambling Commissions 'Guidance to Licensing Authorities Guidance to Licensing Authorities' (first published April 2021 – updated 11 April 2023).
- 2.8 The Gambling Act requires that there is a consultation on the draft Statement of Gambling Licensing Policy. **A consultation was conducted between 15 November 2024 and 12 December 2024.** The draft policy statement was published on the Council's website and communicated to persons or organisations listed in *Appendix 'A'*. It was also circulated to all elected members of this Council.
- 2.9 All the original amendments prior to consultation are highlighted in red. One response was received to the consultation from The Lotteries Council highlighting that section 11.2, needed the regulator for the National Lottery corrected to the Gambling Commission (attached at *Appendix 'B'*). No further amendments have been made to the document. The final draft document is attached at *Appendix 'C'*.
- 2.10 The Committee is asked to recommend the adoption of the revised policy document to Full Council, following which the policy The Act governs the licensing of alcohol, regulated entertainment, and late-night refreshment, which is administered in Slough by the Council, as the licensing authority for the borough.

Implications of the Recommendation

3 Financial implications

- 3.1 There are no direct financial implications arising from this report.

3.2 Legal implications

- 3.2.1 Section 349 of the Act requires a licensing authority to prepare and publish a statement gambling licensing policy that it proposes to apply in exercising its functions under the Act, and the licensing authority is expected to review this from time to time (and amend it if necessary), ensuring that it is reviewed and published at least before the end of each successive three year period.
- 3.2.2 Section 349 of the Act also sets out who the authority should consult with in relation to the policy statement;
- the chief officer of police for the authority's area,
 - one or more persons who appear to the authority to represent the interests of persons carrying on gambling businesses in the authority's area, and
 - one or more persons who appear to the authority to represent the interests of persons who are likely to be affected by the exercise of the authority's functions under the Act.

- 3.2.3 The Council is required to have regard to the statement of gambling licensing policy and make decisions in accordance with it. Licensing authorities may depart from their policy if the individual circumstances of any case merit such a decision in the interests of promoting the licensing objectives. In this event it is important that full justifiable reasons are given for departing from the published statement of licensing policy.
- 3.2.4 Section 1 and Schedule 1 Part 1 and 11 of The Human Rights Act 1998 apply:
- 3.2.5 Article 1 – Every person is entitled to a peaceful enjoyment of his or her possessions including the possession of a licence and shall not be deprived of the possession except in the public interest.
- 3.2.6 Article 6 – That in the determination of civil rights and obligations everyone is entitled to a fair and public hearing within a reasonable time by an independent *and impartial tribunal by law*.
- 3.2.7 Article 8 – Respect for private and family life. In particular, removal or restriction of a licence may affect a person’s private life.
- 3.2.8 Article 10 – Right to freedom of expression.
- 3.2.9 Members should note that the Act imposes a duty on the Council, as the licensing authority, to carry out its functions under the Act with a view to promoting the three licensing objectives, referred to in section 2.1 of this report. Each of these objectives is of paramount and equal importance.
- 3.2.10 Members should note that the statement of gambling licensing policy must not be inconsistent with the provisions of the Act and must not override the right/s of any individual as provided for in that Act. Nor must the statement of gambling licensing policy be inconsistent with obligations placed on the Council under any other legislation, including human rights legislation. Members should also note that the Council has a duty under Section 17 of the Crime and Disorder Act 1998, when carrying out its functions as a licensing authority under the 2005 Act, to do all it reasonably can to prevent crime and disorder within the Borough.
- 3.2.11 Under Part 3.4 (Responsibility for Functions) of the Council’s Constitution, the Licensing Committee’s responsibilities include determining all functions not reserved to Full Council in relation to the Act, and to approve policy in relation to this function where these are not executive functions or reserved to Council.
- 3.2.12 Under the Local Authorities (Functions and Responsibilities) (England) Regulations 2000, decisions relating to licensing matters are not the responsibility, or the sole responsibility, of an authority’s executive. Schedule 3 of these Regulations specifies the licensing authority’s policy statement under the Act is a function not to be the sole representative of an authority’s Executive.
- 3.2.13 The Act provides that whilst the majority of the functions of the licensing authority, are to be taken or carried out by its licensing committee, decisions relating to the statement of licensing policy cannot be delegated in such a way. The decision on whether to adopt the statement of gambling licensing policy must therefore be taken by Full Council.

3.3 Risk management implications

- 3.3.1 The Act requires that the licensing authority have in place a Statement of Gambling Principles document to adhere to in order to carry out its statutory functions under the Act.
- 3.3.2 Licensing functions cannot be carried out without a policy document in place.

3.4 Environmental implications

- 3.4.1 Consideration has given to environmental implications however the nature of the decision is outside the scope of these priorities.

3.5 Equality implications

- 3.5.1 There are no equality implications to the Council.

3.6 Procurement implications

- 3.6.1 There are no procurement implications of the Council.

PART A – Licensing Authority Functions, Relevant Parties, Local Area Profile & Local Risk Assessment

Introduction

1.1 Under section 349 of the Gambling Act 2005 (the Act) the licensing authority is required to publish a statement of the principles which they propose to apply when exercising their functions. The form of the statement of principles is set out in The Gambling Act 2005 (Licensing Authority Policy Statement) (England and Wales) Regulations 2006. This statement must be published at least every three years. The statement must also be reviewed from “time to time” and any amended parts re-consulted upon. The statement of principles must then be re-published.

1.2 The Gambling Act 2005 requires that the following parties are consulted by Licensing Authorities:

- The Chief Officer of Police;
- One or more persons who appear to the authority to represent the interests of persons carrying on gambling businesses in the authority’s area;
- One or more persons who appear to the authority to represent the interests of persons who are likely to be affected by the exercise of the authority’s functions under the Gambling Act 2005.

Authorities may also consult with:

- Organisations including faith groups, voluntary and community organisations working with children and young people, organisations working with people who are problem gamblers, such as public and mental health teams, and advocacy organisations (such as the Citizens Advice Bureau and trade unions)
- Local businesses
- Other tiers of local government (where they exist)
- Responsible Authorities

1.3 The Council consulted widely regarding the revised statement of principles from 15 November 2024 to 12 December 2024. A list of those consulted on the revision of the statement of principles is attached at Appendix B.

1.4 This statement of Gambling Principles was prepared in 2024 and following consultation was approved by Full Council on the **XXXX 2025**. This new three-year statement of principles was published on **XXXX 2025** and has effect from **XXXX 2025**. It will be published in the Councils website.

- 1.5 It should be noted that this statement of principles will not override the right of any person to make an application, make representations about an application, or apply for a review of a licence, as each application will be considered on its own merits and according to the statutory requirements of the Gambling Act 2005.

2. Declaration

- 2.1 In producing the final statement, this licensing authority declares that it has had regard to the licensing objectives of the Gambling Act 2005, the Guidance issued by the Gambling Commission, and any responses from those consulted on the statement.

3. The Licensing Objectives

- 3.1 In exercising most of their functions under the Gambling Act 2005, licensing authorities must have regard to the licensing objectives as set out in section 1 of the Act. The licensing objectives are:

- **Preventing gambling from being a source of crime or disorder, being associated with crime or disorder or being used to support crime**
- **Ensuring that gambling is conducted in a fair and open way**
- **Protecting children and other vulnerable persons from being harmed or exploited by gambling**

- 3.2 It should be noted that the Gambling Commission has stated: *“The requirement in relation to children is explicitly to protect them from being harmed or exploited by gambling”*.

The Act provides for three categories of licence:

- Operating Licence
- Personal Licence
- Premises Licence

- 3.3 The Gambling Commission will be responsible for issuing personal licenses and operating licenses. The licensing authority will be responsible for issuing premises licenses.

The Gambling Commission can be contacted at:

3.4 This licensing authority is aware that, as per Section 153, in making decisions about premises licences and temporary use notices it should aim to permit the use of premises for gambling in so far as it is satisfied that the application is:

- In accordance with any relevant code of practice issued by the Gambling Commission
- In accordance with any relevant Guidance issued by the Gambling Commission
- Reasonably consistent with the licensing objectives and
- In accordance with the authority's statement of licensing policy

4. Slough's geographical area

4.1 The Borough of Slough is located within the Thames Valley, 20 miles to the west of the centre of London and close to Windsor, Maidenhead and Reading. The Borough covers an area of 32.5 square kilometres.

Located along the M4 corridor, Slough is close to Heathrow Airport and is within easy access of the M40 which runs to the Midlands, the M1 which runs to the north and the M3 which runs to the south. Slough Town Centre is served by a Great Western mainline railway station from which the fastest journey time to London Paddington is 15 minutes.

The population of Slough is approximately 158,000, a 13% increase since 2011. Slough is the third most densely populated local authority area across the South East. It is a culturally diverse Borough with a range of communities and a wide range of languages spoken. Slough is often described as a "fusion of different cultures." There are strong Indian and Pakistani communities and more than a third of the population are from minority ethnic communities.

The Borough is heavily urbanised with residential and commercial areas. To the west of the Borough is the Slough Trading Estate, a large commercial area comprising approximately 672,274 square metres. There is entertainment venues comprising of public houses and restaurants in Slough Town Centre and in suburban locations, where there are also members' clubs. There are betting premises located in Slough town centre and in suburban locations.

5. Local Area Profile and Operator Risk Assessments

5.1 All applicants for grants and variations of gambling premises licences must include full details of their Local Risk Assessments (LRA) as part of their applications. This is set out in the Social Responsibility Code 10.1.1 and Ordinary Code Provision 10.1.2 which both took effect from 6th April 2016.

- 5.2 Applicants are expected to demonstrate how their operation will not cause harm or exacerbate issues of risk in light of the protection of children from harm and other vulnerable people should the proposed site be located near schools, any addiction treatment/help centres or medical facilities such as GP practices.
- 5.3 Licensees must assess the local risks to the licensing objectives posed by the provision of gambling facilities and have policies, procedures and controls in place to mitigate those risks.
- 5.4 Licensees must have regard to and take account of the Council's Statement of Principles policy and of the 'Local Area Profile' which details the statistics and data relating to demography, deprivation and poverty for all 15 of Slough's wards. This can be found in the Joint Strategic Needs Assessment - [Joint Strategic Needs Assessment \(JSNA\) – Slough Borough Council](#)
- 5.5 Slough Borough Council's Local Area Profile (LAP) and has information regarding the demographics of the populace and other statistical information.
- 5.6 Applicants are expected to review all the information detailed in the LAP, as well as the data and statistics detailed in the JSNA when forming the local risk assessment. The LRA should be specific to each individual premise. The LRA should consider, as a minimum, the following;
- The location of schools, sixth form colleges, youth centres, playgrounds, leisure/community centres and other areas where children will gather
 - Hostels or support services for vulnerable groups, such as those with addiction issues or who are homeless
 - Whether the premise is in an area subject to high levels of crime and/or anti-social behaviour
 - The socio-economic makeup of the area
- 5.7 Licensees are required to review their LRA to take into account significant changes of local circumstances and significant changes of the premises when applying for any variation.

6. Responsible Authorities

- 6.1 The licensing authority is required by regulations to state the principles it will apply in exercising its powers under Section 157(h) of the Act to designate, in writing, a body which is competent to advise the authority about the protection of children from harm.

The principles are:

- the need for the body to be responsible for an area covering the whole of the licensing authority's area; and
- the need for the body to be answerable to democratically elected persons, rather than any particular vested interest group.

6.2.1 In accordance with the suggestion in the Gambling Commission's Guidance for local authorities, this authority designates the Local Safeguarding Children Board for this purpose.

The Responsible Authorities are;

- The Licensing Authority
- The Gambling Commission
- Thames Valley Police
- Royal Berkshire Fire and Rescue Service
- Planning and Development Control Services
- Environmental Health – (Neighbourhood Enforcement Services)
- Local Safeguarding Children's Board
- HM Revenue and Customs

6.3 The contact details of all the [Responsible Authorities](#) under the Gambling Act 2005 can be found at Slough Borough Council's website.

7. Interested parties

7.1 Interested parties can make representations about licence applications, or apply for a review of an existing licence. These parties are defined in s158 of the Act 2005 as follows:

“For the purposes of this Part a person is an interested party in relation to an application for or in respect of a premises licence if, in the opinion of the licensing authority which issues the licence or to which the applications is made, the person

-

- a) lives sufficiently close to the premises to be likely to be affected by the authorised activities,
- b) has business interests that might be affected by the authorised activities, or
- c) represents persons who satisfy paragraph (a) or (b)”

7.2 The licensing authority is required by regulations to state the principles it will apply in exercising its powers under the Gambling Act 2005 to determine whether a person is an interested party.

The principles are:

7.3 Each case will be decided upon its merits. This authority will not apply a rigid rule to its decision making. It will consider the examples of considerations provided in the Gambling Commission's Guidance to Licensing Authorities at 8.9 to 8.17. It will also consider the Gambling Commission's Guidance that "has business

interests" should be given the widest possible interpretation and include partnerships, charities, faith groups and medical practices.

- 7.4 Interested parties can be persons who are democratically elected such as Councillors and Members of Parliament. No specific evidence of being asked to represent an interested person will be required as long as the Councillor / MP represent the Ward likely to be affected. Likewise, parish councils likely to be affected will be considered to be interested parties. Other than these however, this authority will generally require written evidence that a person/body (e.g. an advocate / relative) 'represents' someone who either lives sufficiently close to the premises to be likely to be affected by the authorised activities and/or has business interests that might be affected by the authorised activities. A letter from one of these persons, requesting the representation is sufficient.
- 7.5 In principle, the Council will allow any person to represent an interested party but it may ask for confirmation that the person genuinely represents the interested party. The Council will generally require evidence that a person/body (e.g. an advocate or relative) 'represents' someone. If persons representing interested parties are Councillors, Members of Parliament or Members of the European Parliament, then no specific evidence of being asked to represent an interested person will be required as long as they represent the area likely to be affected.
- 7.6 If individuals wish to approach Councillors to ask them to represent their views then care should be taken that the Councillors are not part of the Licensing Committee dealing with the licence application. If there are any doubts then please contact the Councils Committee and Member Service for advice.

8. Exchange of Information

- 8.1 The licensing authority will act in accordance with the provisions of section 350 of the Act in its exchange of information with the Gambling Commission and the other persons listed in Schedule 6 of the Act; this includes a provision that the General Data Protection Regulation (GDPR) will not be contravened.
- 8.2 The licensing authority will also have regard to any Guidance issued by the Gambling Commission to local authorities on this matter, as well as any relevant regulations issued by the Secretary of State under the powers provided in the Gambling Act 2005.
- 8.3 Details of applications and representations which are referred to the Licensing Sub-Committee for determination will be detailed in reports that are made publicly available in accordance with the Local Government Act 1972 and the Freedom of Information Act 2000.
- 8.4 Should any protocols be established as regards information exchange with other bodies then they will be made available.

9. Enforcement

9.1 Licensing authorities are required by regulation under the Gambling Act 2005 to state the principles to be applied by the authority in exercising the functions under Part 15 of the Act with respect to the inspection of premises; and the powers under section 346 of the Act to institute criminal proceedings in respect of the offences specified.

9.2 This licensing authority's principles are that we will be guided by the Gambling Commission's Guidance for local authorities and will endeavour to be:

- **Proportionate:** regulators should only intervene when necessary: remedies should be appropriate to the risk posed, and costs identified and minimised.
- **Accountable:** regulators must be able to justify decisions and be subject to public scrutiny.
- **Consistent:** rules and standards must be joined up and implemented fairly.
- **Transparent:** regulators should be open, and keep regulations simple and user friendly; and
- **Targeted:** regulation should be focused on the problem and minimise side effects.

9.3 This licensing authority has adopted a risk-based inspection programme, based on;

- The licensing objectives
- Any relevant codes of practice
- Guidance issued by the Gambling Commission, in particular at Part 36
- The principles set out in this statement of licensing policy.

9.4 The main enforcement and compliance role for this licensing authority in terms of the Gambling Act 2005 is to ensure compliance with the premises licences and other permissions which it authorises.

9.5 The Gambling Commission is the enforcement body for the operating and personal licences. It is also worth noting that concerns about manufacture, supply or repair of gaming machines are not dealt with by the licensing authority but should be notified to the Gambling Commission.

9.6 This licensing authority will also keep itself informed of developments as regards the work of the Better Regulation Executive which is part of the Business, Energy and Industrial Strategy, in its consideration of the regulatory functions of local authorities.

9.7 Our general principles with regards to enforcement are informed by The Regulators' Code, the Enforcement Concordat and the Guidance of Regulatory Delivery as to how to apply these documents.

9.8 The six principles of the Regulators Code are:

1. Regulators should carry out their activities in a way that supports those they regulate to comply and grow.
2. Regulators should provide simple and straightforward ways to engage with those they regulate and hear their views.
3. Regulators should base regulatory activities on risk.
4. Regulators should share information about compliance and risk.
5. Regulators should ensure clear information, guidance and advice is available to help those they regulate meet their responsibilities to comply.
6. Regulators should ensure that their approach to their regulatory activities is transparent.

9.9 The [Regulatory services and enforcement policy](#) can be found at the Slough Borough Council website.

10. Safeguarding – Protecting children and other vulnerable persons from being harmed or exploited.

10.1 As per the Gambling Commission’s Guidance for Licensing Authorities, this Licensing Authority expects operators of gambling premises to have in place policies and measures in protecting children and other vulnerable people from being harmed or exploited by gambling.

10.2 The efficiency of such policies and procedures will be considered on their own merits, however, they may include appropriate measures/training for staff as regards suspected truanting school children on the premises, measures/training covering how staff would deal with unsupervised very young children being on the premises, or children causing perceived problems.

10.3 This Authority will pay particular attention to measures proposed by operators to protect children from harm in premises licensed under the Gambling Act 2005. Such measures may include, but would not be limited to, the following:

- Proof of age schemes
- CCTV
- Supervision of entrances/machine areas
- Physical separation of areas
- Specific opening hours
- Self-barring schemes
- Notices/signage
- Measures/training for staff on how to deal with suspected truanting school children on the premises and how to recognise signs of potential child sexual

exploitation

- clear policies that outline the steps to be taken to protect children from harm;
- Provision of information leaflets/helpline numbers for organisations such as GamCare and GambleAware.

Some of the above are mandatory conditions under The Gambling Act 2005 (Premises Licences and Provisional Statements) Regulations 2007.

- 10.4 This Authority will expect operators to fully comply with the Gambling Commission's Licensing Conditions and Codes of Practice (LCCP) and the Social Responsibility Codes in relation to access for children into Gambling premises and their policies and procedures designed to prevent underage gambling, and how they monitor the effectiveness of these. The Social Responsibility Codes, part of the Gambling Commission's LCCP, can be found on the Gambling Commission's website.
- 10.5 The Gambling Commission advises in its Guidance for Licensing Authorities that Authorities may consider whether there is a need for door supervisors in terms of the licensing objectives of protection of children and vulnerable persons from being harmed or exploited by gambling. In appropriate circumstances this Authority will consider the imposition of conditions requiring door supervisors at particular premises.
- 10.6 Larger operators are responsible for conducting/taking part in underage testing, results of which are shared with the Gambling Commission. Operators are encouraged to also make the results available to licensing authorities, as far as is practicable.

11. Licensing Authority functions

- 11.1 Licensing Authorities are required under the Act to be responsible for:
- The licensing of premises where gambling activities are to take place by issuing **Premises Licences**
 - Issue **Provisional Statements**
 - Regulate **members' clubs and miners' welfare institutes** who wish to undertake certain gaming activities via issuing Club Gaming Permits and/or Club Machine Permits
 - Issue **Club Machine Permits to Commercial Clubs**
 - Grant permits for the use of certain lower stake gaming machines at **unlicensed Family Entertainment Centres**
 - Receive **notifications from alcohol licensed premises** (under the Licensing Act 2003) for the use of two or fewer gaming machines
 - Issue **Licensed Premises Gaming Machine Permits** for premises licensed to sell/supply alcohol for consumption on the licensed premises, under the Licensing Act 2003, where there are more than two machines
 - Register **small society lotteries** below prescribed thresholds
 - Issue **Prize Gaming Permits**

- Receive and Endorse **Temporary Use Notices**
- Receive **Occasional Use Notices**
- Provide information to the Gambling Commission regarding details of licences issued (see section above on 'information exchange')
- Maintain registers of the permits and licences that are issued under these functions
- The exercise of its powers of compliance and enforcement under the 2005 Act in partnership with the Gambling Commission and other relevant responsible authorities.

11.2 It should be noted that the National Lottery is regulated by the Gambling Commission, remote gambling is dealt with by the Gambling Commission and Spread Betting by the Financial Services Authority.

PART B - Premises Licences; Consideration of Applications

12. General Principles

- 12.1 Premises licences will be subject to the requirements set out in the Gambling Act 2005 and regulations, as well as specific mandatory and default conditions which are detailed in regulations issued by the Secretary of State.
- 12.2 This licensing authority is aware that in making decisions about premises licences it should aim to permit the use of premises for gambling in so far as it thinks it:**
- in accordance with any relevant code of practice issued by the Gambling Commission;
 - in accordance with any relevant guidance issued by the Gambling Commission ;
 - reasonably consistent with the licensing objectives; and
 - in accordance with this authority's Statement of Licensing Policy
- 12.3 It is appreciated that as per the Gambling Commission's Guidance to Local Authorities "moral objections to gambling are not a valid reason to reject applications for premises licences" (except as regards any 'no casino resolution' - see section on Casinos below – Section 12) and also that unmet demand is not a criterion for a licensing authority.
- 12.4 When making a decision about a new application the licensing authority will expect the applicant to have taken into consideration the impact of the application being granted, and to have put in place measures with regards, but not limited to:
- Schools, sixth form colleges, youth centres etc, with reference to the potential risk of underage gambling
 - The surrounding night time economy, and possible interaction with gambling premises
- 12.5 In the Act, "premises" is defined as including "any place". Section 152 therefore prevents more than one premises licence applying to any place. But a single building could be subject to more than one premises licence, provided they are for different parts of the building and the different parts of the building can be reasonably regarded as being different premises.
- 12.6 This approach has been taken to allow large, multiple unit premises such as a pleasure park, pier, track or shopping mall to obtain discrete premises licences, where appropriate safeguards are in place. However, licensing authorities should pay particular attention if there are issues about sub-divisions of a single building or plot and should ensure that mandatory conditions relating to access between premises are observed.
- 12.7 The Gambling Commission states in its Guidance to Licensing Authorities (updated September 2016) that: *"In most cases the expectation is that a single*

building / plot will be the subject of an application for a licence, for example, 32 High Street. But, that does not mean 32 High Street cannot be the subject of separate premises licences for the basement and ground floor, if they are configured acceptably.

- 12.8 Whether different parts of a building can properly be regarded as being separate premises will depend on the circumstances. The location of the premises will clearly be an important consideration and the suitability of the division is likely to be a matter for discussion between the operator and the licensing officer. However, the Commission does not consider that areas of a building that are artificially or temporarily separated, for example by ropes or moveable partitions, can properly be regarded as different premises.”
- 12.9 This licensing authority takes particular note of the Gambling Commission’s Guidance to Licensing Authorities which states that: licensing authorities should take particular care in considering applications for multiple licences for a building and those relating to a discrete part of a building used for other (non-gambling) purposes. In particular they should be aware of the following:
- It is perfectly legal for children to take part in some limited gambling activities i.e. Category ‘D’ Machines.
 - The third licensing objective seeks to protect children from being harmed by gambling. Therefore, premises should be configured so that children are not invited to participate in, have accidental access to or closely observe gambling where they are prohibited from participating.
 - Entrances to and exits from parts of a building covered by one or more premises licences should be separate and identifiable so that the separation of different premises is not compromised, and people do not “drift” into a gambling area. In this context it should normally be possible to access the premises without going through another licensed premises or premises with a permit.
 - Customers should be able to participate in the activity names on the premises licence.
- 12.10 The Guidance also gives a list of factors which the licensing authority should be aware of, which may include:
- Do the premises have a separate registration for business rates?
 - Is the premises’ neighbouring premises owned by the same person or someone else?
 - Can each of the premises be accessed from the street or a public passageway?
 - Can the premises only be accessed from any other gambling premises?
- 12.11 This authority will consider these and other relevant factors in making its decision, depending on all the circumstances of the case.

13. The Gambling Commission's relevant access provisions for each premises type are reproduced below:

Adult Gaming Centre

- No customer must be able to access the premises directly from any other licensed gambling premises

Betting Shops

- Access must be from a street (as per para 7.23 Guidance to Licensing Authorities) or from another premises with a betting premises licence
- No direct access from a betting shop to another premises used for the retail sale of merchandise or services. In effect there cannot be an entrance to a betting shop from a shop of any kind and you could not have a betting shop at the back of a café – the whole area would have to be licensed.

Bingo Premises

- No customer must be able to access the premise directly from:
 - a casino
 - an adult gaming centre
 - a betting premises, other than a track

Family Entertainment Centre

- No customer must be able to access the premises directly from:
 - a casino
 - an adult gaming centre
 - a betting premises, other than a track

13.1 Part 7 of the Gambling Commission's Guidance to Licensing Authorities contains further guidance on this issue, which this authority will also take into account in its decision-making.

13.2 The Guidance states that a licence to use premises for gambling should only be issued in relation to premises that the licensing authority can be satisfied are going to be ready to be used for gambling in the reasonably near future, consistent with the scale of building or alterations required before the premises are brought into use.

13.3 If the construction of a premises is not yet complete, or if they need alteration, or if the applicant does not yet have a right to occupy them, then an application for a provisional statement should be made instead.

13.4 Deciding whether a premises licence can be granted where there are outstanding construction or alteration works at a premises, this authority will determine applications on their merits, applying a two stage consideration process:-

- First, whether the premises ought to be permitted to be used for gambling.
 - Second, whether appropriate conditions can be put in place to cater for the situation that the premises are not yet in the state in which they ought to be before gambling takes place.
- 13.5 Applicants should note that this authority is entitled to decide that it is appropriate to grant a licence subject to conditions, but it is not obliged to grant such a licence.
- 13.6 More detailed examples of the circumstances in which such a licence may be granted can be found at paragraphs 7.56 -7.65 of the Guidance.
- 13.7 This licensing authority is aware that demand issues cannot be considered with regard to the location of premises but that considerations in terms of the licensing objectives are relevant to its decision making.
- 13.8 As per the Gambling Commission’s Guidance for local authorities, this authority will pay particular attention to the protection of children and vulnerable persons from being harmed or exploited by gambling, as well as issues of crime and disorder.
- 13.9 This authority will have regard to the “Guidance”:- 7.65 - When dealing with a premises licence application, the licensing authority should not take into account whether those buildings have or comply with the necessary planning or building consents. Those matters should be dealt with under relevant planning control and building regulation powers, and not form part of the consideration for the premises licence.
- 13.10 Section 210 of the 2005 Act prevents licensing authorities taking into account the likelihood of the proposal by the applicant obtaining planning or building consent when considering a premises licence application. Equally the grant of a gambling premises licence does not prejudice or prevent any action that may be appropriate under the law relating to planning or building.
- 13.11 This licensing authority seeks to **avoid any duplication** with other statutory /regulatory systems where possible, including planning. This authority will not consider whether a licence application is likely to be awarded planning permission or building regulations approval, in its consideration of it. It will though, listen to, and consider carefully, any concerns about conditions which are not able to be met by licensees due to planning restrictions, should such a situation arise.
- 13.12 When dealing with a premises licence application, this authority will not take into account whether those buildings have to comply with the necessary planning or buildings consents. Fire or health and safety risks will not be taken into account, as these matters are dealt with under relevant planning control, buildings and other regulations and must not form part of the consideration for the premises licence.

13.13 Premises licences granted must be reasonably consistent with the licensing objectives. With regard to these objectives, this licensing authority has considered the Gambling Commission's Guidance to local authorities and some comments are made below.

14. Premises plans (new applications and variations)

14.1 New applications and variation applications must be accompanied by a plan of the premises. The Gambling Act 2005 (Premises Licences and Provisional Statements) Regulation 2007 (as amended) states that a plan must show:

- the extent of the boundary or perimeter of the premises
- where the premises include, or consist of, one or more buildings, the location of any external or internal walls of each such building.
- where the premises form part of a building, the location of any external or internal walls of the building which are included in the premises.
- where the premises are a vessel or a part of a vessel, the location of any part of the sides of the vessel, and of any internal walls of the vessel, which are included in the premises.
- the location of each point of entry to and exit from the premises, including in each case a description of the place from which entry is made or to which the exit leads.

14.2 The Licensing Authority must establish if an application is 'in accordance with the relevant code of practice' and this will include social responsibility codes. It also needs to be determined whether the application is 'reasonably consistent with the licensing objectives. Should the application and accompanying plan be insufficient to satisfy these requirements the applicant will be required to submit more information.

14.3 Applicants are advised for the following to be included on the premises plan:

- Location of service counter
- Location of all self-service betting terminals

15. Privacy screens around gaming machines

15.1 A screen or pod around a gaming machine, designed for player privacy, should not stop premises staff from effectively monitoring gaming machine play. It is an operator's responsibility to ensure staff are able to effectively supervise gaming, as per the conditions of the operator licence. The licence conditions and code of practice (LCCP) state: ***'Facilities for gambling must be offered in a manner which provides for appropriate supervision of those facilities by staff at all times'***.

- 15.2 Age verification, customer interaction and self-exclusion policies all require operators to take into account the structure and layout of their premises. Operators must be able to evidence how they have considered the risk to the licensing objectives and implemented effective controls.
- 15.3 Where operators are unable to demonstrate effective controls, the licensing authority will use regulatory powers to instruct the removal of any impediments to staff carrying out their responsibilities.

16. Preventing gambling from being a source of crime or disorder, being associated with crime or disorder or being used to support crime

- 16.1 The Gambling Commission will play a leading role in preventing gambling from being a source of crime.
- 16.2 If an application is received regarding a premises located in an area noted for particular problems with organised crime, the licensing authority will work in partnership with the Police and other relevant bodies to consider whether specific controls need to be applied to the licence to help prevent premises becoming a source of crime. Such measures could include a condition requiring suitable numbers of door supervisors at the premises.
- 16.3 The licensing authority recognises the distinction between disorder and nuisance. Disorder is intended to mean activity that is more serious and disruptive than mere nuisance. Fact the licensing authority will consider in determining whether a disturbance was serious enough to constitute disorder would include whether any Police assistance was required and how threatening the behaviour was to those who could see and hear it. Issues concerning nuisance cannot be dealt with by the Gambling Act, as there is other primary legislation in place to deal with such issues.

17. Ensuring that gambling is conducted in a fair and open way

- 17.1 This licensing authority will not be directly concerned with ensuring gambling being conducted in a fair and open way, as this will be addressed by the Gambling Commission through the operating and personal licensing regime.
- 17.2 Track operators will not be required to hold an operator's licence. The premises licence will contain requirements on the licence holder regarding his or her responsibilities to ensure gambling is conducted in a fair and open way within betting areas.

18. Protecting children and other vulnerable persons from being harmed or exploited by gambling

- 18.1 With very little exceptions the intention of the Act is that children and young persons should not be permitted to gamble and should be prevented from entering those gambling premises which are adult-only environments. This means

preventing them from taking part in gambling where such gambling would be illegal and placing restrictions on advertising so that gambling products are not aimed at, or are attractive to children.

18.2 In some limited cases children are legally permitted to gamble and the licensing authority will consider whether specific measures are required on certain premises to protect children. This may include:

- Segregation of gambling from areas used by children
- Supervision of gambling machines in licensed family entertainment centres

18.3 The list is not exhaustive. Particular care will be taken on tracks where children are permitted on race days.

18.4 Any Codes of practice issued by the Gambling Commission will be considered by the licensing authority in relation to casinos and this licensing objective.

18.5 No specific definition of 'vulnerable persons' has been identified within the Act. The licensing authority may include, but not limited to;

- Those people who gamble more than they want; or
- People who gamble beyond their means; or
- People who cannot make informed or balanced decisions about gambling due to mental impairment, alcohol or drugs as vulnerable people.

18.6 The licensing authority will consider licensing objectives on a case-by-case basis.

19. Conditions

19.1 All premises licensed under the Gambling Act 2005 are subject to mandatory and default conditions which are usually sufficient to ensure operation which is reasonably consistent with the licensing objectives.

19.2 Additional conditions may only be imposed where there is clear evidence of a risk to the licensing objectives in the circumstances of a particular case that requires that the mandatory and default conditions be supplemented.

19.3 Any conditions attached to licences will be proportionate and will be:

- relevant to the need to make the proposed building suitable as a gambling facility;
- directly related to the premises and the type of licence applied for;
- fairly and reasonably related to the scale and type of premises; and
- reasonable in all other respects.

19.4 Decisions upon individual conditions will be made on a case by case basis, although there will be a number of measures this licensing authority will consider utilising, such as the use of supervisors, appropriate signage for adult only areas

etc. There are specific comments made in this regard under some of the licence types below. This licensing authority will also expect the licence applicant to offer his/her own suggestions as to way in which the licensing objectives can be met effectively.

19.5 We will also consider specific measures which may be required for buildings which are subject to multiple premises licences. Such measures may include the supervision of entrances; segregation of gambling from non-gambling areas frequented by children; and the supervision of gaming machines in non-adult gambling specific premises in order to pursue the licensing objectives. These matters are in accordance with the Gambling Commission's Guidance.

19.6 This authority will also ensure that where category A to C or above machines are on offer in premises to which children are admitted, other than premises licensed for the supply of alcohol under the Licensing Act 2003;

- all such machines are located in an area of the premises which is separated from the remainder of the premises by a physical barrier which is effective to prevent access other than through a designated entrance;
- only adults are admitted to the area where these machines are located;
- access to the area where the machines are located is supervised;
- the area where these machines are located is arranged so that it can be observed by the staff or the licence holder; and
- at the entrance to and inside any such areas there are prominently displayed notices indicating that access to the area is prohibited to persons under 18.

19.7 These considerations will apply to premises including buildings where multiple premises licences are applicable.

19.8 It is noted that there are conditions which the licensing authority cannot attach to premises licences which are:

- any condition on the premises licence which makes it impossible to comply with an operating licence condition;
- conditions relating to gaming machine categories, numbers, or method of operation;
- conditions which provide that membership of a club or body be required (the Gambling Act 2005 specifically removes the membership requirement for casino and bingo clubs and this provision prevents it being reinstated; and
- conditions in relation to stakes, fees, winning or prizes.

20. Door Supervisors

20.1 The Gambling Commission advises in its Guidance for Local Authorities that if a licensing authority is concerned that a premises may attract disorder or be subject to attempts at unauthorised access (for example by children and young person's then it may require that the entrances to the premises are controlled by a door supervisor, and is entitled to impose a premises licence to this effect.

20.2 Where it is decided that supervision of entrances / machines is appropriate for particular cases, a consideration of whether these need to be SIA licensed or not will be necessary. It will not be automatically assumed that they need to be licensed, as the statutory requirement for different types of premises vary (as per the Guidance, Part 33).

21. Adult Gaming Centres

21.1 When granting premises licenses for adult gaming centres the licensing authority will have regard to the licensing objectives. It expects applicants to offer their own measures to meet the objectives, in particular, the need to protect children and vulnerable persons from harm or being exploited by gambling. The applicant must satisfy the licensing authority there will be sufficient measures to ensure that under 18 year olds are not permitted to enter premises.

21.2 As a guide, section 26 of this policy details a number of what is considered appropriate measures and licence conditions that Operators may wish to consider having place.

21.3 The list is not mandatory, nor exhaustive, and is merely indicative of example measures.

21.4 The question of sub division of such premises has become an issue and been the subject of Gambling Commission Guidance. There must be no direct entry from one adult gaming centre into another. This Authority will take note of the Guidance issued in respect of such applications.

22. (Licensed) Family Entertainment Centres

22.1 When granting premises licenses for licensed family entertainment centres, the licensing authority will have regard to the licensing objectives. It expect applicants to offer their own measures to meet the objectives, in particular the need to protect children and vulnerable persons from harm or being exploited by gambling. The applicant must satisfy the licensing authority there will be sufficient measures to ensure that under 18 year olds do not have access to the adult only gaming machine areas.

22.2 As a guide, section 26 of this policy details a number of what is considered appropriate measures and licence conditions that Operators may wish to consider having place.

22.3 The list is not mandatory, nor exhaustive, and is merely indicative of example measures.

22.4 This licensing authority will, as per the Gambling Commission's guidance, refer to the Commission's website to see any conditions that apply to operating licences covering the way in which the area containing the category C machines should be delineated. This licensing authority will also make itself aware of any mandatory

- All such machines are located in an area of the premises separate from the remainder of the premises by a physical barrier which is effective to prevent access to the area where the machines are located

- 27.2 Sites used for travelling fairs are limited to a maximum of 27 days per calendar year. If sites being used for this purpose straddle local authority areas, the licensing authority will work with the relevant authority to maintain a central log to ensure that statutory 27-day limit is not exceeded.

28. Provisional Statements

- 28.1 Developers may wish to apply to this authority for provisional statements before entering a contract to buy or lease property or land to judge whether a development is worth taking forward in light of the need to obtain a premises licence. There is no need for the applicant to hold an operating licence in order to apply for a provisional statement.
- 28.2 S204 of the Gambling Act provides for a person to make an application to the licensing authority for a provisional statement in respect of premises that he or she:
- expects to be constructed;
 - expects to be altered; or
 - expects to acquire a right to occupy.
- 28.3 The process for considering an application for a provisional statement is the same as that for a premises licence application. The applicant is obliged to give notice of the application in the same way as applying for a premises licence. Responsible authorities and interested parties may make representations and there are rights of appeal.
- 28.4 In contrast to the premises licence application, the applicant does not have to hold or have applied for an operating licence from the Gambling Commission (except in the case of a track) and they do not have to have a right to occupy the premises in respect of which their provisional application is made.
- 28.5 The holder of a provisional statement may then apply for a premises licence once the premises are constructed, altered, or acquired. The licensing authority will be constrained in the matters it can consider when determining the premises licence application, and in terms of representations about premises licence applications

that follow the grant of a provisional statement, no further representations from relevant authorities or interested parties can be taken into account unless:

- they concern matters which could not have been addressed at the provisional statement stage, or
- they reflect a change in the applicant's circumstances.

28.6 In addition, the authority may refuse the premises licence (or grant it on terms different to those attached to the provisional statement) only by reference to matters:

- which could not have been raised by objectors at the provisional statement stage;
- which in the authority's opinion reflect a change in the operator's circumstances; or
- where the premises has not been constructed in accordance with the plan submitted with the application. This must be a substantial change to the plan and this licensing authority notes that it can discuss any concerns it has with the applicant before making a decision.

29. Reviews

29.1 Requests for a review of a premises licence can be made by interested parties or responsible authorities; however, it is for the licensing authority to decide whether the review is to be carried-out. This will be on the basis of whether the request for the review is relevant to the matters listed below;

- in accordance with any relevant Code of Practice issued by the Gambling Commission;
- in accordance with any relevant guidance issued by the Gambling Commission;
- reasonably consistent with the licensing objectives; and
- in accordance with the authority's statement of principles.

29.2 The request for the review will also be subject to the consideration by the authority as to whether the request is frivolous, vexatious, or whether it will certainly not cause this authority to wish to alter/revoke/suspend the licence, or whether it is substantially the same as previous representations or requests for review.

29.3 The licensing authority can also initiate a review of a particular premises licence, or a particular class of premises licence on the basis of any reason which it thinks is appropriate.

29.4 Once a valid application for a review has been received by the licensing authority, representations can be made by responsible authorities and interested parties during a 28-day period. This period begins 7 days after the application was received by the licensing authority, who will publish notice of the application within 7 days of receipt.

- 29.5 The licensing authority must carry out the review as soon as possible after the 28-day period for making representations has passed.
- 29.6 The purpose of the review will be to determine whether the licensing authority should take any action in relation to the licence. If action is justified, the options open to the licensing authority are:-
- (a) add, remove or amend a licence condition imposed by the licensing authority;
 - (b) exclude a default condition imposed by the Secretary of State or Scottish Ministers (e.g. opening hours) or remove or amend such an exclusion;
 - (c) suspend the premises licence for a period not exceeding three months; and
 - (d) revoke the premises licence.
- 29.7 In determining what action, if any, should be taken following a review, the licensing authority must have regard to the principles set out in section 153 of the Act, as well as any relevant representations.
- 29.8 In particular, the licensing authority may also initiate a review of a premises licence on the grounds that a premises licence holder has not provided facilities for gambling at the premises. This is to prevent people from applying for licences in a speculative manner without intending to use them.
- 29.9 Once the review has been completed, the licensing authority must, as soon as possible, notify its decision to:
- the licence holder
 - the applicant for review (if any)
 - the Commission
 - any person who made representations
 - the chief officer of police or chief constable; and
 - Her Majesty's Commissioners for Revenue and Customs

- 30.1 Where a premises does not hold a premises licence the operator may apply for a permit. The applicant must show the premises will be wholly or mainly used for the provision of gaming machines for use.
- 30.2 The licensing authority shall have regard to the guidance by the Gambling Commission in respect of permits for unlicensed FECs.
- 30.3 Only category D machines are allowed to be available for use on a permit.
- 30.4 The Chief Officer of Police will be consulted on the receipt of an application for a permit.
- 30.5 Before being granted a permit the applicant will need to demonstrate:
- A full understanding of the maximum stakes and prizes of the gambling that is permissible in unlicensed FECs.
 - That they have no relevant convictions as detailed in the Act
 - Staff are trained to have a full understanding of the maximum stakes and prizes, and
 - How they will deal with children protection issues.
- 30.6 Given that the premises will particularly appeal to children and young persons, in considering applications, the licensing authority will give weight to child protection issues.
- 30.7 Consideration of the suitability of applicants for this type of permit will follow the guidance issued by the Gambling Commission.
- 30.8 The Council cannot attach conditions to this type of permit.
- 30.9 Once granted the permit last for 10 years, unless it is surrendered or forfeited.
- 30.10 **Statement of Principles:** This licensing authority will expect the applicant to show that there are policies and procedures in place to protect children from harm. Harm in this context is not limited to harm from gambling but includes wider child protection considerations. The efficiency of such policies and procedures will each be considered on their merits, however, they may include appropriate measures / training for staff as regards suspected truant school children on the premises, measures / training covering how staff would deal with unsupervised very young children being on the premises, or children causing perceived problems on / around the premises. This licensing authority will also expect all measures as outlined in (18.5 above) to be fully demonstrated.

31. Clubs & Premises with an alcohol licence

- 31.1 It is an offence to provide gambling facilities without the relevant operating licence and premises licence unless the activity is subject to an exception. Part 12 of the Act provides that, in clubs and premises with an alcohol licence, certain gaming (including poker) is exempt, subject to stakes and prize limitations or, if appropriate permissions are held, then there can be unlimited stakes and prizes.
- 31.2 Gaming of this type is usually provided in clubs and premises with an alcohol licence and is subject to specific conditions and codes of practice. S.279-284 of the Act only applies to premises in respect of which an on sales/supply -premises alcohol licence is held. It is important to remember that gambling must remain ancillary to the main purpose of the premises and the exemptions and permits are reliant on the premises holding a valid alcohol licence.
- 31.3 More information regarding gaming machine entitlements for premises with an alcohol licence can be found on the [Gambling Commission](#) website.

32. Removal of exemption for alcohol licensed premises

- 32.1 The Licensing Authority can remove the automatic authorisation for exempt gaming in respect of any particular alcohol licensed premises by making an order under s.284 of the Act (see also [Part 26](#)). That section provides for the licensing authority to make such an order if:
- provision of the gaming is not reasonably consistent with the pursuit of the licensing objectives
 - gaming has taken place on the premises that breaches a condition of s.279 – for example, the gaming does not abide by the prescribed limits for stakes and prizes, a participation fee is charged for the gaming or an amount is deducted or levied from sums staked or won
 - the premises are mainly used for gaming
 - an offence under the Act has been committed on the premises.
- 32.2 Such an order could be used by the Licensing Authority where, for example, poker is being offered in alcohol licensed premises that consistently breaches the prescribed limits on stakes and prizes, participation fees are being charged for the poker, amounts are deducted from stakes or winnings, or poker (and other gaming) is the main activity offered on the premises.

33. Alcohol Licensed Premises Gaming Machine Permits

- 33.1 There is provision in the Act for premises licensed to sell alcohol for consumption on the premises, to automatically have 2 gaming machines, of categories C and or D.
- 33.2 These premises merely need to inly notify the licensing authority. The licensing authority can remove the automatic authorisation in respect of any particular if:
- Provision of machine is not reasonably consistent with the pursuit of the licensing objectives.
 - Gaming has taken place on the premises that breaches a condition of section 282 of the Gambling Act 2005 (i.e. that written notice has been provided to the licensing authority, that a fee has been provided and that any relevant Code of practice issued by the Gambling Commission about the location and operation of the machine has been complied with).
 - The premises are mainly used for gambling: or
 - An offence under the Gambling Act has been committed, and “*such matters as they think relevant*”.

34. Permit; 3 or More Machines

- 34.1 If a premises wishes to have more than 2 machines, then it needs to apply for permit and the licensing authority must consider that application based upon the licensing objectives, any guidance issued by the Gambling Commission issued under section 25 of the Gambling Act 2005, and “such matters as they think relevant”.
- 34.2 The licensing authority considers that “*such matters*” will be decided on a case by case basis but generally there will be regard to the need to protect children and vulnerable persons from being harmed or exploited by gambling and will expect the applicant to satisfy the authority that there will be sufficient measures to ensure that under 18 year olds do not have access to the adult only gaming machines.
- 34.3 Measures that will satisfy the authority that there will be no access may include:
- The adult machines being in sight of the bar, or in the sight of staff who will monitor that the machines are not being used by those under 18.
 - Providing notices and signage.
 - Providing information leaflets or helpline numbers for organisations such as Gamcare or gambler Anonymous.
- 34.4 This list is not mandatory, nor exhaustive. It is an example of possible measures.

- 34.5 An alcohol licensed premises may apply for a licence for their non-alcohol licensed areas. Such an application would need to be for an Adult gaming Centre premises licence.
- 34.6 The licensing authority can grant the application with a smaller number of gaming machines and or different categories than that applied for. The licensing authority however, cannot attach any other types of conditions.
- 34.7 The holder of a permit must comply with any Codes of practice issued by the gambling Commission about the location and operation of the gambling machines.
- 34.8 The licensing authority will cancel a permit if the holder fails to pay the annual fee, unless the failure is a result of an administrative error.

35. Small Society Lotteries

35.1 Under the Gambling Act 2005, a lottery is unlawful unless it runs under an operating licence issued by the Gambling Commission or, is an exempt lottery. This Licensing Authority will register and administer small society lotteries as defined under the Act. Promoting or facilitating a lottery will fall into two categories:-

- Licensed Lotteries (requiring an operating licence from the Gambling Commission);
- Exempt Lotteries (including small society lotteries registered with Slough Borough City Council).

35.2. Exempt lotteries are lotteries permitted to run without a licence from the Gambling Commission and are defined as:-

- Small society lotteries;
- Incidental non-commercial lotteries;
- Private lotteries;
- Private society lotteries;
- Work lottery;
- Residents' lottery;
- Customers' lottery.

35.3 The Licensing Authority defines 'society' as the society or any separate branch of such a society on whose behalf a lottery is to be promoted, and needs to understand the purposes for which a society has been established in ensuring that it is a non-commercial organisation.

Applications to Register

35.4 Applicants for a small society registration must apply to the Licensing Authority in the area where their principal office is located. Where the Licensing Authority believes that the Society's principal office is situated in another area it will inform

the Society as soon as possible and where possible, will inform the other Licensing Authority.

- 35.5 Applications for small society lottery registrations must be in the form prescribed by the Secretary of State and be accompanied by both the required registration fee and all the necessary supporting documents required by the Licensing Authority to determine the application.
- 35.6 If there is any doubt as to the status of a society that makes application for registration to carry on small society lotteries, the Licensing Authority may require the society to provide documentary evidence in support of their application. The types of evidence that may be required include, but are not restricted to:
- A list of the members of the society;
 - the society's constitution or a similar document setting out the aims and objectives of the society and its governance arrangements;
 - a written declaration from the applicant stating that they represent a bona fide non-commercial society.
- 35.7 The Licensing Authority shall refuse an application for registration if in the period of five years ending with the date of the application:-
- an operating licence held by the applicant for registration has been revoked under section 119(1) of the act, or
 - an application for an operating licence made by the applicant for registration has been refused.
- 35.8 The Licensing Authority may refuse an application for registration if they think that:-
- the applicant is not a non-commercial society;
 - a person who will or may be connected with the promotion of the lottery has
 - been convicted of a relevant offence, or
 - information provided in or with the application for registration is false or misleading.
- 35.9 The Licensing Authority may only refuse an application for registration after the society has had the opportunity to make representations at a formal hearing. If the Licensing Authority is minded to refuse registration, it will inform the society of the reasons why it is minded to do so and provide it with an outline of the evidence on which it has reached that preliminary conclusion, in order to enable representations to be made.
- 35.10 Any representations received will be considered at a formal hearing and the following principles will be applied when reaching a decision:-
- Whether allowing the registration of the society would be consistent with the Act;
 - Whether allowing the registration of the society would be consistent with the promotion of the licensing objectives;

- Whether allowing the registration of the society would be consistent with any relevant code of practice issued by the Gambling Commission.

35.11 Any decision made at a hearing may be appealed to the Magistrates' Court within 21 days of receiving notice of the decision.

Promoting a small society lottery

35.12 Participation in a lottery is a form of gambling, and as such the Licensing Authority requires societies that it registers to conduct their lotteries in a socially responsible manner and in accordance with the Act.

35.13 The Act requires that lottery tickets may only be sold by persons that are aged 16 or over to persons that are aged 16 or over.

35.14 As the minimum age for participation in a lottery is 16, this Licensing Authority expects those societies that it registers to have written procedures and policies in place to help prevent and deal with lottery tickets being sold to children, including procedures for:

- checking the age of apparently underage purchasers of lottery tickets;
- taking action where there are unlawful attempts to purchase tickets.

35.15 Lotteries may involve the issuing of physical or virtual tickets to participants (a virtual ticket being non-physical, for example in the form of an email or text message). All tickets must state:-

- the name of the promoting society;
- the price of the ticket, which must be the same for all tickets;
- the name and address of the member of the society who is designated as having responsibility at the society for promoting small lotteries or, if there is on the external lottery manager (elm);
- the date of the draw, or information which enables the date to be determined.

35.16 The requirement to provide this information can be satisfied by providing an opportunity for the participant to retain the message electronically or print it.

35.17 With regards to where small society lottery tickets may be sold, this Licensing Authority applies the following criteria to all small society lottery operators:-

Lottery tickets must not be sold to a person in any street. For these purposes 'street' includes any bridge, road, lane, footway, subway, square, court, alley or passage (including passages through enclosed premises such as shopping malls) whether a thoroughfare or not. Tickets may, however, be sold in a street from a static structure such as a kiosk or display stand. Tickets may also be sold door to door. Licensees must ensure that they have any necessary local authority permissions, such as a street trading licence.

35.18 This approach is consistent with the operating licence conditions imposed upon operators of large society lotteries and local authority lotteries.

35.19 Where the annual fee is not paid by the due date this Licensing Authority will cancel the small society registration. This is subject to the discretion of the Community Wellbeing Manager who shall determine whether cancellation shall apply on a case by case basis. The onus is firmly placed on the Society to ensure they pay the annual fee by the due date.

Financial Returns

35.20 As the purpose of permitted lotteries is to raise money for non-commercial causes, the Act requires that a minimum proportion of the money raised by the lottery is channelled to the goals of the society that promoted the lottery. If a small society lottery does not comply with these limits it will be in breach of the Act's provisions, and consequently be liable to prosecution.

35.21 The limits are as follows:

- at least 20% of the lottery proceeds must be applied to the purposes of the society;
- no single prize may be worth more than £25,000
- rollovers between lotteries are only permitted where every lottery affected is also a small society lottery promoted by the same society, and the maximum single prize is £25,000;
- every ticket in the lottery must cost the same and the society must take payment for the ticket fee before entry into the draw is allowed.

35.22 The Act sets out the information that the promoting society of a small society lottery must send as returns to the licensing authority with which it is registered, following each lottery held. This information allows the Licensing Authority to assess whether financial limits are being adhered to and to ensure that any money raised is applied for the proper purpose.

35.23 The following information must be submitted;-

- the arrangements for the lottery – specifically the date on which tickets were available for sale or supply, the dates of any draw and the value of prizes, including any donated prizes and any rollover;
- the total proceeds of the lottery;
- the amounts deducted by the promoters of the lottery in providing prizes, including prizes in accordance with any rollovers;
- the amounts deducted by the promoters of the lottery in respect of costs incurred in organising the lottery;

- the amount applied to the purpose for which the promoting society is conducted (this must be at least 20% of the proceeds);
- whether any expenses incurred in connection with the lottery were not paid for by deduction from the proceeds, and, if so, the amount of expenses and the sources from which they were paid.

35.24 The Act also requires that returns must;

- be sent to the licensing authority no later than three months after the date of the lottery draw, or in the case of 'instant lotteries' (scratch cards) within three months of the last date on which tickets were on sale;
- be signed (electronic signatures are acceptable if the return is sent electronically) by two members of the society, who must be aged 18 or older, are appointed for the purpose in writing by the society or, if it has one, its governing body, and be accompanied by a copy of their letter or letters of appointment.

35.26 Where societies run more than one lottery in a calendar year, this Licensing Authority must monitor the cumulative total of returns to ensure that societies do not breach the annual monetary limit of £250,000 on ticket sales.

35.27 This Licensing Authority must notify the Commission if returns reveal that a society's lotteries have exceeded the values permissible, and such notifications will be copied to the society in question.

35.28 More information regarding [Small Society Lotteries](#) can be found on the Gambling Commission website.

36. Prize Gaming Permits

36.1 The following may provide Prize Gaming:

- Bingo premises as a consequence of their Bingo Operating licence.
- Adult gaming Centres and licensed Family Entrainment Centres.
- Unlicensed Family Entertainment Centres may offer equal chance prize gaming under a gaming machine permit.
- Travelling fairs without a permit, as long as none of the gambling facilities at the fair amount to more than an ancillary amusement.

Children and young people may participate in equal chance gaming only.

36.2 Statement of Principles: The Gambling Act 2005 states that a licensing authority may "prepare a Statement of Principles that they propose to apply in exercising their functions under this schedule" which "may, in particular, specify matters that the licensing authority propose to consider in determining the suitability of the applicant for a permit".

- 36.3 The licensing authority has prepared a Statement of Principles which is that the applicant should set out the types of gaming that he or she is intending to offer and that the applicant should be able to demonstrate:
- That they understand the limits to stakes and prizes that are set out in Regulations.
 - That the gaming offered is within the law.
 - Clear policies that outline the steps to be taken to protect children from harm.
- 36.4 In making its decision on an application for this permit the licensing authority does not need to (but may) have regard to the licensing objectives but must have regard to any Gambling Commission guidance. (Gambling Act, Schedule 14 paragraph 8(3))
- 36.5 There are conditions in the Gambling Act 2005 by which the permit holder must comply, but that the licensing authority cannot attach conditions. The conditions in the Act are:
- The limits on participation fees, as set out in regulations, must be complied with;
 - All chances to participate in the gaming must be allocated on the premises on which the gaming is taking place and on one day; the game must be played and completed on the day the chances are allocated; and the result of the game must be made public in the premises on the day that it is played;
 - The prize for which the game is played must not exceed the amount set out in regulations (if a money prize), or the prescribed value (if non-monetary prize); and
 - Participation in the gaming must not entitle the player to take part in any other gambling.

37. Club Gaming and Club Machines Permits

- 37.1 Members Clubs and Miners' welfare institutes (but not Commercial Clubs) may apply for a Club Gaming Permit or a Clubs Gaming Machines Permit. The Club Gaming Permit will enable the premises to provide;
- Up to 3 machines of categories B, C or D
 - Equal chance gaming
 - Games of chance as set-out in forthcoming regulations.
- 37.2 A Club Gaming Machine Permit will enable the premises to provide gaming machines (3 machines of categories B, C or D).
- 37.3 Gambling Commission Guidance states: "Members clubs must have at least 25 members and be established and conducted "wholly or mainly" for purposes other than gaming, unless the gaming is permitted by separate regulations. It is anticipated that this will cover bridge and whist clubs, which will replicate the position under the Gaming Act 1968. A members' club must be permanent in

nature, not established to make commercial profit, and controlled by its member equally. Examples include working men's clubs, branches of Royal British Legion and clubs with political affiliations."

37.4 The Commission Guidance also states that "licensing authorities may only refuse an application on the grounds that:

- (a) The applicant does not fulfil the requirements for a members' or commercial club or miners' welfare institute and therefore is not entitled to receive the type of permit for which it has applied;
- (b) The applicant's premises are used wholly or mainly by children and/or young persons;
- (c) An offence under the Act or a breach of a permit has been committed by the applicant while providing gaming facilities;
- (d) A permit held by the applicant has been cancelled in the previous ten years; or
- (e) An objection has been lodged by the Commission or the police.

37.5 There is also a 'fast-track' procedure available under the Act for premises which hold a Club Premises Certificate under the Licensing Act 2003 (Schedule 12 paragraph 10). As the Gambling Commission's Guidance for local authorities states: "Under the fast-track procedure there is no opportunity for objections to be made by the Commission or the police, and the ground upon which an authority can refuse a permit are reduced." and "The grounds on which an application under the process may be refused are:

- (a) that the club is established primarily for gaming, other than gaming prescribed under schedule 12;
- (b) that in addition to the prescribed gaming, the applicant provides facilities for other gaming; or
- (c) that a club gaming permit or club machine permit issued to the applicant in the last ten years has been cancelled."

37.6 There are statutory conditions on club gaming permits that no child uses a category B or C machine on the premises and that the holder complies with any relevant provision of a code of practice about the location and operation of gaming machines.

37.7 Once granted a permit lasts for 10 years, unless it is surrendered or forfeited.
