

Paper Petition Details

Response to Chalvey Protest

We, the residents of Chalvey strongly oppose the proposals regarding Chalvey congestion because it will badly affect the life of Chalvey residents. We demand that Slough Borough Council should reject these proposals

This petition was received on 12th October 2011.

This petition was passed to the Network Management Team Leader on 13th October 2011

This petition was responded to on 23rd November 2011 by the Network Management Team Leader.

Council Response

I am writing to respond formally to the additional petition submitted in September, which followed on from the earlier protest against the proposal to close and pedestrianise Chalvey Road West.

The deployment of the experimental measures is now well underway. The works in Chalvey Road East and Chalvey Road West are virtually complete. Works are well underway at the junction of High Street, Chalvey Road West and Church Street. Thames Water are still working in Ledgers Road and Ragstone Road, so we have not been able to implement our own measures in these roads. Likewise we will not be able to complete the experimental works underneath the railway bridge until Thames Water's works and the bridge painting works are complete.

We are hoping to be able to complete the installation of the experimental measures by Christmas. Over the following months the community will be able to experience the benefits and disadvantages of the scheme at first hand, and we will be engaging with the community to establish which features of the scheme are supported and which are not welcome. The feedback we have received so far suggests that there are a range of views within the community.

Your concerns, and the concerns of those who signed the petition, will be taken into account in any decision on whether to make any aspect of the scheme permanent.
