Council Response

Thank you for submitting a petition regarding the parking problems you are experiencing on Lorne Close

After undertaking a site visit, I am happy to place this location on our waiting restrictions request list, with the view to have double yellow lines implemented. The effect of this will mean that vehicles will be prohibited from parking on both the footway and carriageway at this location, improving access for pedestrians and vehicles and overall road safety. The review of this waiting list is undertaken on an annual basis, and we anticipate the next review being completed later on this year, followed by a formal consultation on our proposals giving the residents the opportunity to make representations. The usual timescale for a scheme to be implemented is between 9-12 months.

I hope this information helps and if you have any further queries please do not hesitate to contact me.
