

Paper Petition Details

Blocked Service Road Issues

We the undersigned had signed this petition to say that we would like something done on the back of our service road that we all have access to but is constantly blocked by British Heart Foundation, 303 High Street, Slough, SL1 1BD. We have all had enough and would like something done about this as this is causing a nuisance to all of our businesses.

This petition was received on 10th April, 2014.

This petition was passed to the Engineer - Parking Development on 10th April, 2014.

This petition was responded to by the Engineer - Parking Development on 16th April, 2014.

Council Response

With reference to the above petition request – **Blocked Service Road Issues**

The Council is not able to accept this petition as it has fallen below the minimum threshold of 10 signatories.

However the Council Officer has given the following suggestions outlined below:

There are currently existing yellow line parking restrictions along the entirety of this access road. If the lorries are parking on these restrictions, the Council are able to take enforcement action against the vehicles. You can report any breach of the parking restrictions to the enforcement team by calling 01753 825428, and an enforcement officer will attend.

If the lorries are parking in the middle of the carriageway and blocking it, the Police may be able to assist as they have the powers to move vehicles on, as well as issue fixed penalties for obstruction of the highway.

If you have a contact that you have been speaking to at the British Heart Foundation, I am happy to contact them to see if I can give them some advice to help alleviate this problem. Other than this, unfortunately there is little that the Council can do if drivers choose to ignore the restrictions in place and block the road, however I hope that you will find some of the above suggestions useful.

I am sorry that I cannot be of any further assistance on this occasion.
