## Extension of Zone D – Parking Permits for Residents of 1A Stoke Road

We, the residents of West Central property do not have any nearby off street even though the West Central property stretches from Stoke Road and joins the Grays Road adjacently, we are not allowed to park in Grays Road, which is causing inconvenience to the residents of West Central property, leading to fines.

Also, the Grays Road parking is not utilised properly and is laying idle for 90% of the time. We would be thankful to the Council if they can consider extending the Zone D to residents of 1A Stoke Road which would also help the Council to utilize and get revenue on the under-utilized off street parking.

### Council Response

Thank you for the submission of the above petition.

Unfortunately, the Council cannot consider your request to include Stoke Road into the Zone D residents parking zone. Slough Borough Council has a planning policy to restrain parking for new developments in the town centre and West Central is classed as a town centre development. This policy is applied on the basis that, firstly, it is appropriate to limit traffic growth from new development to avoid further town centre traffic congestion and secondly, that public transport options, shops and other facilities are nearby such that many people are willing and able to live in town centres without a car.

Furthermore, the developer for West Central agreed that residents of the development will be ineligible to apply for a parking permit in existing and future residents parking schemes as part of the planning approval.

We are sorry we were unable to assist on this occasion.
