Council Response

Thank you for the submission of the above petition.

Slough Borough Council is pleased to advise that we can consider this request and it has been placed on our waiting list. The process to implement such schemes is currently under review and therefore we are unable to provide timescales at present, however we must advise that this may be several months.

Letters will be sent to affected residents when the scheme has been designed with information about the proposal, and how to make representations before any scheme is implemented. A decision will then be made on how best to proceed based on any feedback.
