

Paper Petition Details

Traffic Calming Measures on Rokesby Road, Wentworth Avenue & Calbroke Road

Over recent years there has been a massive increase in speeding drivers and parents parking four wheels on the pavements especially at peak periods. This is an excessive risk to children especially those on the way to school and the elderly alike.

With this in mind, I politely ask the Council to provide suitable traffic calming measures throughout Britwell but particularly on Rokesby Road, Wentworth Avenue and Calbroke Road. As well as parking restrictions to ensure four wheels are not parked on pedestrian pavements. Any measures provided should be manageable and fit for purpose.

This petition was received on 2nd October, 2017.

This petition was passed to the Team Leader, Parking Services on 5th October, 2017.

This petition was responded to by the Team Leader, Parking Services on 16th October, 2017.

Council Response

Following your paper petition received by Democratic Services on 2nd October, 2017 which was subsequently forwarded to me for consideration, your local Councillor has been in touch to discuss the petition and any possible measures that could be taken forward.

With regards to your concerns in relation to parking I can confirm that your local Councillor has also been in liaison with the Parking department and as a result, Rokesby Road will be considered for the pavement parking scheme. This scheme would ban vehicles from being able to park with 4 wheels on the pavement and would involve an engineer conducting a site visit to the affected location. The engineer would also measure the width of the road and footways, and then design a scheme which promotes safety for all road users.

If you would like the Authority to also consider implementing the pavement parking scheme on Wentworth Avenue and Calbroke Road then you would need to contact your local ward councillor and request this. Please see the following web address for the process to implement new parking restrictions;

<http://www.slough.gov.uk/parking-travel-and-roads/obstructive-parking.aspx>

With regards to reports of speeding and safety for vulnerable road users we will commission a traffic survey in the area during a neutral period (either November 2017 or February 2018). After the results of the survey are analysed and considered we will

determine if any further action can be taken subject to available funding. We will also liaise with the relevant ward Councillors during this time to better understand the prevalent issues and consider potential solutions.

If in the meantime you require any further information please do not hesitate to contact me by email at TfS@slough.gov.uk .
