# Summary

## Who we are and what we do

The Boundary Commission for England is an independent and impartial non-departmental public body, which is responsible for reviewing Parliamentary constituency boundaries in England.

## The 2018 Review

We have the task of periodically reviewing the boundaries of all the Parliamentary constituencies in England. We are currently conducting a review on the basis of new rules laid down by Parliament. These rules involve a significant reduction in the number of constituencies in England (from 533 to 501), resulting in the number of constituencies in the South East reducing by one, to 83. The rules also require that every constituency – apart from two specified exceptions<sup>1</sup> – must have an electorate that is no smaller than 71,031 and no larger than 78,507.

# How did we conduct the 2018 Review?

We published our initial proposals for new boundaries in September 2016 and consulted on them. We received written comments and oral submissions at public hearings held in each region. We published all the comments we received and we held a second consultation exercise in relation to them in March 2017. We are very grateful for all the comments that these two consultation exercises have generated. We have now completed the next stage of the review process and we are now publishing our revised proposals. For each region, the revised proposals report sets out our analysis of all the responses to our initial proposals in the first and second consultations, and the conclusions we have reached as to how those proposals should be revised as a result. The annex to each report contains details of the composition of each constituency in our revised proposals for the relevant region; maps to illustrate these constituencies can be viewed on our website or in hard copy at a local place of deposit near you.

# What are the revised proposals for the South East?

We have revised the composition of 41 of the 83 constituencies we proposed in September 2016. After careful consideration, we have decided not to make any revisions to the composition of the remaining 42. In some instances, however, we have revised our proposed names for these constituencies.

Under our revised proposals, 20 constituencies in the South East would be the same as they are under the existing arrangements.

As it was not always possible to allocate whole numbers of constituencies to individual counties, our initial proposals grouped some local authority areas into sub-regions. It was also necessary to propose some constituencies that cross county or unitary authority boundaries. Following consideration of the representations made on our initial proposals, our revised proposals are based on new sub-regions, as shown in the table overleaf.

<sup>1</sup> The specified exemptions in England to the rules on constituency size are the two constituencies in the Isle of Wight. However, with this important qualification, in all other aspects of the 2018 Review, the Isle of Wight is treated in the same way as other parts of England.

3

Sub-region	Existing allocation	Allocation under our revised proposals
Berkshire and Surrey	19	19
Brighton and Hove, East Sussex, Kent, and Medway	25	24
West Sussex	8	8
Buckinghamshire and Milton Keynes	7	7
Hampshire, Portsmouth, and Southampton	18	17
Isle of Wight	1	2
Oxfordshire	6	6

We are proposing three cross-county constituencies. In Brighton and Hove, East Sussex, Kent, and Medway, we are proposing that Mid Kent and Ticehurst, and Tunbridge Wells and Crowborough cross the East Sussex/Kent boundary, to allow us to create a whole number of constituencies within 5% of the electoral quota. In Berkshire and Surrey, we are proposing a Windsor constituency which includes the Windlesham ward from the County of Surrey, to avoid removing part of the urban centre of Slough.

In the Berkshire and Surrey sub-region, we are changing 12 of our initial proposals, increasing the number of existing constituencies we are able to retain to 11, adding Mole Valley, Slough, Woking, and Wokingham.

In Brighton and Hove, East Sussex, Kent, and Medway, we are changing 17 of our initial proposals, right across the sub-region.

In West Sussex, we are making no changes to our initial proposals.

In Buckinghamshire and Milton Keynes, we are changing two of our initial proposals, altering which Milton Keynes wards are allocated to Buckingham.

In Hampshire, Portsmouth, and Southampton, we are changing four of our initial proposals, in Portsmouth and around Romsey. In the Isle of Wight sub-region, we are changing our initial proposals for both constituencies around Wootton.

In Oxfordshire, we are changing four of our initial proposals, around Oxford and Wallingford.

## How to have your say

We are consulting on our revised proposals for an eight-week period, from 17 October 2017 to 11 December 2017. We encourage everyone to use this final opportunity to contribute to the design of the new constituencies – the more public views we hear, the more informed our decisions will be when we make recommendations to the Government.

We ask everyone wishing to contribute to the design of the new constituencies to first look at the revised proposals report, and accompanying maps, before responding to us. The best way to respond to our revised proposals is through our consultation website: www.bce2018.org.uk.

# What is the Boundary Commission for England?

**1.1** The Boundary Commission for England (BCE) is an independent and impartial non-departmental public body, which is required by Parliament to review Parliamentary constituency boundaries in England. We conduct a review of all the constituencies in England every five years. Our role is to make recommendations to Parliament for new constituency boundaries. We also make recommendations for any changes in the names of individual constituencies.

**1.2** The Chair of the Commission is the Speaker of the House of Commons, but by convention he or she does not participate in the formulation of the Commission's recommendations, nor in the conduct of the review. The Deputy Chair and two further Commissioners take decisions on what recommendations to make for new constituency boundaries. They are assisted in their task by 21 assistant commissioners (two or three allocated to each of the nine regions of England). Further information about the Commissioners and assistant commissioners can be found in the 'About us' section of our corporate website.<sup>2</sup>

**1.3** Our consultation website at www.bce2018.org.uk contains all the information needed to view and comment on our revised proposals. You can also contact us with any general enquiries by emailing information@ boundarycommissionengland.gov.uk, by calling 020 7276 1102, or by writing to:

The Secretary to the Commission Boundary Commission for England 35 Great Smith Street London SW1P 3BQ

# 2 Background to the 2018 Review

2.1 There are four Boundary Commissions covering the UK with separate Commissions for Scotland, Wales and Northern Ireland. The Parliamentary Constituencies Act 1986 states that they must conduct a review of Parliamentary constituency boundaries, and make recommendations to Government, every five years. Under the current review, we must report in September 2018. The four Commissions work separately, and this report covers only the work of the Boundary Commission for England and, in particular, introduces our revised proposals for the South East.

**2.2** Parliamentary boundaries are important, as they define the area in which voters will elect a Member of Parliament. If our recommendations are accepted, they would be used for the first time at the next General Election following their acceptance.

**2.3** The legislation we work to states that there will be 600 Parliamentary constituencies covering the UK - a reduction of 50 from the current number. For England, that means that the number of constituencies must reduce from 533 to 501. There are also new rules that the Commission has to adhere to when conducting the review – a full set of rules can be found in our Guide to the 2018 Review of Parliamentary constituencies (the Guide),<sup>3</sup> published in the summer of 2016, but they are also summarised later in this chapter. Most significantly, the rules state that every constituency we recommend (with the exception of two covering the Isle of Wight) must contain between 71,031 and 78,507 electors.

2.4 This is a significant change to the old rules under which Parliamentary boundary reviews took place, where achieving as close to the average number of electors in each constituency was an aim but not an overriding legal necessity. For example, in England, the largest constituency currently has around twice as many electors as the smallest. Achieving a more even distribution of electors in every constituency across England, together with the reduction in the total number of constituencies, means that a significant scale of change to the existing map of constituencies is inevitable.

**2.5** If implemented, the recommendations that we will make in September 2018 will be the first set of boundaries to be defined under the new rules. While there has to be a significant amount of change across the country, we will, where possible, try to limit the extent of such change, having regard to the statutory factors. Under the Act, we have a challenging job to do in conducting a review of constituency boundaries that is necessarily going to result, in many places, in a pattern of constituencies that is unfamiliar to the public. Nevertheless the review has been one that we have conducted in a rigorous and thorough fashion.

**2.6** The revised proposals that we set out in this report, and in the reports for the other eight regions across England, are made on the basis of the evidence we received during two consultation exercises, the careful consideration of our assistant commissioners and the best judgement of the three Boundary Commissioners. We are confident that these revised

<sup>3</sup> Available at http://boundarycommissionforengland.independent.gov.uk/2018-review.

7

proposals strike the best balance between the statutory factors and, having consulted twice already, we are close to settling on a pattern of constituencies to recommend to Parliament next year. There may be particular areas across the country where our judgement has been a balanced and marginal one between competing alternatives, and in such cases we have made clear that we are looking for further evidence before we finalise our recommendations. In many areas we are persuaded by the evidence we have received thus far, and we would therefore require new and significantly stronger arguments to make us depart from our revised proposals. If it exists, such new and compelling evidence would be welcome. However, we will not be assisted by repetition of arguments that have already been made, and which we have already considered. The requirement to keep constituencies within the permitted range of electors is strict, but otherwise we have sought to balance often conflicting considerations. Our proposals must also be comprehensive. We are acutely conscious that very often a change in one constituency necessarily requires an alteration in another and sometimes the consequential alterations reverberate through a whole chain of constituencies.

**2.7** The Guide contains further detailed background, and explains all the policies and procedures that we are following in conducting the review, in greater depth than in this consultation document. We encourage anyone wishing to be involved in the review to read the Guide, to enable greater understanding of the rules and constraints placed on the Commission, especially if they are intending to comment on our revised proposals.

## The rules in the legislation

**2.8** The rules contained in the legislation state that every constituency in England (except two covering the Isle of Wight) must have an electorate of between 71,031 and 78,507 – that is, 5% either side of the electoral quota of 74,769. The legislation also states that, when deciding on boundaries, the Commission may also take into account:

- special geographical considerations, including the size, shape and accessibility of a constituency
- local government boundaries as they existed on 7 May 2015
- boundaries of existing constituencies
- any local ties that would be broken by changes in constituencies.

2.9 It is essential to understand that none of the factors mentioned in the list above overrides the necessity to achieve an electorate in each constituency that is within the range allowed, as explained previously. In relation to local government boundaries in particular, it should be noted that we are obliged to take into account local government boundaries as they existed in May 2015. Our initial proposals for the region and the accompanying maps were based on the wards as they existed in May 2015, and our revised proposals contained within this report continue to be based on those boundaries. The Guide outlines further our policy on how, and to what extent, we take into account local government boundaries that have been amended since 2015.

**2.10** In our initial proposals, we took into account the boundaries of existing constituencies so far as we could, and

tried to retain existing constituencies where possible, so long as the other factors could also be satisfied. As mentioned earlier in this chapter, because of the scale of change required to fulfil the obligations imposed on us by the new rules, this proved difficult. Our initial proposals retained 18% of the existing constituencies in the South East – the remainder were new constituencies (although in a number of cases we were able to limit the changes to existing constituencies, making only minor changes as necessary to enable us to comply with the new rules).

**2.11** Among the many arguments we heard in response to the consultations on our initial proposals was the need to have particular regard to this factor of the rules to which we work. While some respondents put a higher value on retaining existing constituency boundaries over the other factors in the rules, it is the Commission's task to balance all the factors. As we set out in the course of this report, our revised proposals retain 20 (24%) of the existing 84 constituencies in the South East.

## The use of the regions used for European elections

**2.12** Our proposals are based on the nine regions used for European elections. This report relates to the South East. There are eight other separate reports containing our revised proposals for the other regions. At the very beginning of the 2018 Review we decided, in agreement with all the main political parties, to use these regions as a basis for working out our initial proposals. You can find more details in the Guide and on our website.

We stated in our initial proposals report that, while this approach does not prevent anyone from making proposals to us that cross regional boundaries, we would need to have compelling reasons provided to us to persuade us to depart from the regionbased approach.

**2.13** In response to the consultations on our initial proposals, we did not receive sufficient evidence across the country to suggest that we should depart from the regional approach to this review. Therefore, this report, and all other regional reports, continues to use the regional boundaries as a basis for proposals for constituencies.

## Timetable for the review

### Stage one - initial proposals

**2.14** We began this review in February 2016 by publishing breakdowns of the electorate for each ward, local government authority and existing constituency, which were prepared using electorate data provided by local authorities and the Office for National Statistics. These are available on the data pages of our corporate website.<sup>4</sup> The Commission spent a number of months considering the factors outlined above and drawing up our initial proposals. We published our initial proposals for consultation for each of England's nine regions on 13 September 2016.

## Stage two – consultation on initial proposals

**2.15** We consulted on our initial proposals for 12 weeks, from 13 September 2016 to 5 December 2016. This consultation period also included holding 36 public

<sup>4</sup> http://boundarycommissionforengland.independent.gov.uk/data-and-resources

9

hearings, at which people had the opportunity to make oral representations. We received more than 18,000 unique written representations across the country as a whole, including more than 2,000 unique written representations relating to the South East. We also heard more than 100 oral representations at the five public hearings in the South East. We are grateful to all those who took the time and trouble to read and respond to our initial proposals.

## Stage three – consultation on representations received

**2.16** The legislation requires us to publish all the representations we received on our initial proposals, and to allow people to send us comments on them for a four-week period. We published the representations on 28 February 2017 and invited comments on them until 27 March 2017. We received more than 7,500 unique written representations across the country as a whole during those four weeks.

## Stage four – publication of revised proposals

**2.17** As we outline in chapter 3, having considered the evidence presented to us, we have decided that the evidence is such that it is appropriate to revise our initial proposals in some areas. Therefore, as we are required to do (under the legislation), on 17 October 2017, we are publishing this report – Revised proposals for new constituency boundaries in the South East – alongside eight others, one for each of the other regions in England. We are consulting on our revised proposals for the statutory eight-week period, which closes on 11 December 2017. Unlike the

initial consultation period, there is no provision in the legislation for further public hearings, nor is there a repeat of the four-week period for commenting on the representations of others. Chapter 4 outlines how you can contribute during this consultation period.

### Stage five – final recommendations

2.18 Once the consultation on revised proposals has closed on 11 December 2017, we will consider all the representations received at this stage, and throughout the review, before making final recommendations to the Government. The legislation states that we must do this during September 2018. Further details about what the Government and Parliament must do to implement our recommendations are contained in the Guide.

**2.19** At the launch of each stage of consultation, we have taken – and are continuing to take – all reasonable steps to publicise our proposals, so that as many people as possible are aware of the consultation and can take the opportunity to contribute to our review of constituencies.

# 3 Revised proposals for the South East

**3.1** In July 2016, we arranged for the appointment of three assistant commissioners for the South East – Colin Byrne, Stephen Lawes and Alan Nisbett – to assist us with the analysis of the representations received during the first two consultation periods. This included chairing public hearings held in the region to collect oral evidence, as follows:

- Guildford: 20–21 October 2016
- Oxford: 24–25 October 2016
- Portsmouth: 27–28 October 2016
- Brighton: 31 October 1 November 2016
- Maidstone: 3–4 November 2016.

**3.2** We asked the assistant commissioners to consider all the written and oral representations, and to make recommendations to us on whether our initial proposals should be revised, in light of evidence provided in the representations. It is important to stress that the assistant commissioners had no involvement in developing – and therefore no vested interest in supporting - our initial proposals. Accordingly, they came to the analysis with an independent mind, open to viable alternative proposals supported by evidence. We are incredibly grateful for the thorough and methodical approach the assistant commissioners have taken to their work.

**3.3** What follows in this chapter is:

- a brief recap of our initial proposals
- a description of the counter-proposals put forward during the consultations
- the assistant commissioners' analysis of the strength of the arguments for adoption of any of those counter-proposals

 our decision on whether or not to make changes to our proposals in the given area.

**3.4** A tabular summary of the revised constituencies we now propose appears at Annex A to this report.

**3.5** Throughout this chapter, where we refer to a respondent's response we also include the reference number, i.e. BCE-12345. This reference number corresponds with the representations that can be found on our consultation website at www.bce2018.org.uk. All representations received in response to the first two consultations are publicly available on this website. The representations received in response to these revised proposals will be published at the end of the review.

**3.6** The term 'ward' used throughout this document should be taken to mean electoral division in reference to the Isle of Wight.

## The sub-region split

- **3.7** The initial proposal sub-regions were:
- Berkshire
- Brighton and Hove, East Sussex, Kent, and Medway
- West Sussex
- Buckinghamshire and Milton Keynes
- Hampshire, Portsmouth, and Southampton
- Isle of Wight
- Oxfordshire
- Surrey.

**3.8** These were largely supported, with some exceptions. Notably, the Pirate Party (BCE-30175) proposed a Berkshire

and Surrey sub-region, and a Brighton and Hove, East Sussex, Kent, and Medway sub-region, which they felt better respected local ties. Jonathan Rogers (BCE-38947) also proposed a Brighton and Hove, East Sussex, West Sussex, Kent, and Medway sub-region, in order to resolve issues for Hove. Oliver Raven (BCE-30164) also proposed a Brighton and Hove, East Sussex, West Sussex, Kent, and Medway sub-region, as part of a counter-proposal covering all of the South East.

**3.9** Our assistant commissioners carefully considered these counterproposals, based on different sub-regional configurations. While they considered that there were elements of the proposals that had merit for certain constituencies (and are discussed in each sub-regional section), they were not persuaded by the strength of arguments, in particular about crossing the West Sussex/East Sussex county boundary. They concluded that these counter-proposals disrupted more existing constituencies than was necessary to create an acceptable configuration. Oliver Raven's counter-proposal was rejected as it provided little evidence as to its merits. As will be set out below, the assistant commissioners did observe that, by crossing the Berkshire/Surrey boundary at Windlesham, rather than across the length of the boundary (not just at Windlesham), as suggested by the Pirate Party, changes to Bracknell and Slough constituencies can be avoided. We therefore endorse the assistant commissioners' recommendation to combine Berkshire and Surrey in a subregion, and retain the remainder of the sub-regions as per the initial proposals as a basis for our revised proposals.

## **Berkshire and Surrey**

**3.10** Of the 19 existing constituencies in the Berkshire and Surrey sub-region, 12 (Bracknell, East Surrey, Epsom and Ewell, Guildford, Maidenhead, Mole Valley, Reigate, Slough, South West Surrey, Surrey Heath, Woking, and Wokingham) are currently within 5% of the electoral quota. Of the remaining seven constituencies, Esher and Walton, and Newbury have electorates more than 5% above the electoral quota and Reading East, Reading West, Runnymede and Weybridge, Spelthorne, and Windsor are all more than 5% below the electoral quota.

**3.11** The initial proposals retained the seven constituencies of Bracknell, East Surrey, Epsom and Ewell, Guildford, Maidenhead, Reigate, and South West Surrey unchanged, and made minor amendments to the others to bring all of them within 5% of the electoral quota.

#### Berkshire

**3.12** The Commission received broad support for the initial proposals in Berkshire. The official response from the Conservative Party (BCE-30308, BCE-31975 and BCE-40878) supported the proposals. The Labour Party (BCE-30359, BCE-31969 and BCE-40901) supported them, with the exception of retaining Chalvey ward in the Slough constituency and moving instead Bullbrook ward from Bracknell to Windsor. The Liberal Democrat Party's counter-proposal (BCE-28287 and BCE-31973) suggested moving 13 wards within this sub-region to better reflect local ties. The counterproposal put forward by the Newbury and West Berkshire Liberal Democrats

(BCE-21241) supported the official Liberal Democrat Party counter-proposal, subject to one amendment: that Aldermaston ward should remain within Newbury and, in its place, the ward of Basildon would become part of Reading West.

**3.13** There were four main issues raised in relation to the initial proposals for Berkshire: whether Aldermaston ward looks towards Newbury and Basingstoke rather than to Wokingham; the separation of Maiden Erlegh from the rest of the Lower Earley area in Reading East; Mapledurham ward being effectively detached from the Reading West constituency; and the removal of the Chalvey ward from the Slough constituency.

**3.14** It is helpful for the purposes of this exercise to consider Berkshire in two halves: the western side of Berkshire, containing the constituencies of Newbury, Wokingham and both Reading East and Reading West; and, to the east, Bracknell, Windsor, Maidenhead, and Slough.

**3.15** Starting with the western part of the county, representations were received arguing that the Aldermaston ward is rural and looks towards Newbury or Basingstoke for shopping and leisure activities, not towards the eastern areas (Janet Barnes, BCE-29472 and Peter Hulme, BCE-24253). These views were supported by Robert Young (BCE-23745), who was also concerned about the lack of direct public transport links into Wokingham. Conversely, we received support for the initial proposals from Keith Baer (BCE-34316), asserting that Wokingham has the same mix of urban and rural areas centred around a main town as the Newbury constituency.

**3.16** A number of respondents were concerned that the initial proposals for the Reading East constituency took the ward of Maiden Erlegh away from the Lower Earley area. We received a petition from Carl Doran, Chair of the Earley Labour Party (BCE-28400 and BCE-40960), with 325 signatures, to keep Maiden Erlegh and the Lower Earley area in the Wokingham constituency.

**3.17** Those supporting the initial proposal for the transfer of Maiden Erlegh ward included former Member of Parliament for Reading East Rob Wilson (BCE-30657 and BCE-32005), who pointed out that the proposed grouping of wards would bring together the campus of the University of Reading into one constituency and boost already established local ties with Reading East. He also asserted that residents look towards Reading or Woodley town centre for shopping and recreation.

**3.18** Responses raised concerns that the Mapledurham ward in the proposed Reading West constituency would be a detached ward, with no direct crossings over the River Thames to link the ward to the rest of the proposed Reading West constituency (Malcolm Pemble, BCE-15273, John Popplewell, BCE-27457 and Alison Ray, BCE-28751). Further evidence from the ward councillor for Mapledurham, Isobel Ballsdon (BCE-26147), added that residents of the ward share community ties with Caversham in Reading East. Counter-proposals from Jeanette Skeats (BCE-40716) and Ed Hopper (BCE-16213) suggested that Basildon ward, which is currently in the Newbury constituency, could be transferred to Reading West as an alternative to moving Mapledurham ward to ensure the constituencies are within 5%

of the electoral quota. The Conservative Party (BCE-30308) also indicated that 'if the Commission decided to find an alternative ward for example the Basildon ward of West Berkshire' (currently in the Newbury constituency with 2,459 electors) that 'this would also be acceptable'.

**3.19** The assistant commissioners considered the Liberal Democrat Party's counter-proposal (BCE-28287) and concluded that it was not the optimum solution given that there were better alternatives that were less disruptive.

**3.20** Our assistant commissioners recognised that the solution to the Aldermaston ward and the Reading East and Reading West issues were connected when considering the western side of Berkshire. There were two main alternatives put forward, one from former Member of Parliament Rob Wilson (BCE-30657 and BCE-32005), which transferred Basildon ward from Newbury to Reading West to increase the elector numbers in this constituency, allowing the ward of Mapledurham to remain in Reading East. The assistant commissioners were strongly of the view that the Mapledurham ward should be moved into Reading East, due to its otherwise detached nature.

**3.21** An alternative option for west Berkshire was put forward by Aaron Fear (BCE-30739), which transferred both Basildon and Bucklebury wards from Newbury into Reading West and moved Battle from Reading West to Reading East. This would allow both Reading East to retain Mapledurham and Wokingham to retain Maiden Erlegh and thereby be unchanged. Aldermaston can again remain in Newbury under this approach. **3.22** We note that there was significant opposition to the transfer of Basildon ward to the Reading West constituency, although this move was not included in our initial proposals and despite the existence of good road and rail links from Basildon into Reading (as mentioned by Ian McKenzie, BCE-26915, Andrew Marshall, BCE-26896 and David Thomas, BCE-26127).

**3.23** Having considered the representations made for West Berkshire. our assistant commissioners were entirely persuaded that Mapledurham should be reunited with the Reading East constituency, due to the access issues and their effect on local ties. They were not persuaded that the arguments to keep the university campus together outweighed the evidence of the break in local ties that occurred in the Earley area under our initial proposals. Accordingly, they considered, on balance, that Aaron Fear's counter-proposal (BCE-30739) provided a slightly better alignment between local authority and constituency boundaries (e.g. the existing Wokingham constituency boundary), and they therefore recommended his counter-proposal for the western side of Berkshire.

**3.24** We agree with the assistant commissioners that Maiden Erlegh be reunited with Hawkedon ward and the Lower Earley area, in the Wokingham constituency. We were concerned by the proposal to transfer the large, more rural, wards of Basildon and, in particular, Bucklebury into the Reading West constituency, and tested the assistant commissioners on this recommendation. They noted that, while not ideal (as noted in the opposition already expressed from

Basildon ward), this solution did allow for Aldermaston to remain in the Newbury constituency, and for Maiden Erlegh to remain in the Wokingham constituency (which could therefore remain unchanged), and would also retain the existing degree of coterminosity with the local authority. In light of this, we are content to accept these recommendations as part of our revised proposals, noting particularly that leaving Wokingham constituency unchanged is an essential element enabling the retention of Aldermaston within Newbury. We welcome evidence from the local communities of Bucklebury and Basildon regarding this finely balanced decision.

**3.25** Moving to the east of Berkshire, strong opposition was received relating to the transfer of Chalvey ward from Slough to Windsor. The vast majority of those expressing their view felt that Chalvey was part of the civic heart of Slough, and therefore the initial proposals would break the local ties it had with the rest of the Slough town centre area. Slough Borough Council (BCE-26831) put its argument most succinctly: 'Chalvey ward is in the central urban area of Slough, contains Slough High Street, Slough Borough Council Offices, the Slough MPs Office, the town's magistrates court and Slough Police station – all illustrative of it being part of the central urban core of the Slough constituency.'

**3.26** Other arguments stated that the M4 motorway served as a barrier between Chalvey ward and the rest of the Windsor constituency (Philip Wright, BCE-27818), and that the needs of the residents of Chalvey ward (due to its demographic) are significantly different to those of the Windsor constituency (Madhuri Bedi,

BCE-39387 and Rob Deeks, BCE-32016). Father Alistair Stewart, vicar in the parish of Upton-cum-Chalvey, stated as part of his oral representation (BCE-32070) that: 'Chalvey itself is an area of significant urban deprivation, as you are undoubtedly aware. So my fear, apart from having my own work made more difficult by working in two Parliamentary constituencies, is that there will be a democratic deficit for the people of Chalvey, who will be separated, as it were, from easy access to their Member of Parliament, who will be represented fundamentally by a constituency which is unlike Chalvey in cultural and socio-economic means and is fundamentally still a market town rather than an industrial urban centre, which is what Slough is and of which Chalvey is a fundamental part.'

**3.27** The overwhelming response received during the consultations indicated that a revised approach was required in relation to the proposed Windsor constituency. The assistant commissioners were persuaded by the strength of evidence presented that Chalvey ward clearly has stronger local ties to Slough than Windsor, not least given the presence of a number of Slough civic institutions in the ward. They were of the view that this ward may not be adequately represented if it were transferred to the Windsor constituency, and to do so would break local ties. The assistant commissioners therefore recommended to us that Chalvey ward should remain in the Slough constituency, and we agree.

**3.28** In order to address the inadequate electorate numbers in the Windsor constituency that would arise as a consequence of the ward of Chalvey

remaining in Slough, the assistant commissioners considered the alternatives. Any one of Bullbrook ward, Crowthorne ward, or Priestwood and Garth ward, all currently in the Bracknell constituency, have been suggested as better alternatives to be added into the Windsor constituency instead of Chalvey ward, for example by Catherine Meek on behalf of Slough Borough Council (BCE 26831) and Sohail Munawar (BCE 34506). Any of the three wards would bring Windsor within 5% of the electoral quota and would not have any knock-on effects. However, none of these wards were ideal. Both Bullbrook. and Priestwood and Garth wards are adjacent to Bracknell town centre, being only a few hundred metres from the main shopping complex. Although in the past other more distant Bracknell Forest Council wards, such as Warfield Harvest Ride, have become part of the Windsor constituency. the transfer of these wards would extend the Windsor constituency right into the heart of Bracknell. Our assistant commissioners therefore considered that this outcome would be little better than the transfer of Chalvey under the initial proposals. Crowthorne is a more rural ward, but has poor road connections and no rail connections to Windsor and therefore is also not a strong candidate.

**3.29** As an alternative solution, the Pirate Party (BCE-30175) suggested a more wide-ranging cross-county Windsor, Ascot, and Surrey Heath constituency (which included the transfer of five Surrey Heath wards). The assistant commissioners considered this counterproposal too radical and disruptive, and not in adherence to the statutory factors of matching existing constituencies and respecting local government boundaries. **3.30** However, given the disruption that would occur to Bracknell under the first option (the inclusion of either Bullbrook, Crowthorne, or Priestwood and Garth wards in the Bracknell constituency), the assistant commissioners considered whether there were individual wards in the county of Surrey that could be placed in the Windsor constituency in order to address the low electorate. They noted the reasonable road links from Windlesham ward, in the Surrey Heath constituency, to Windsor through the neighbouring wards of Sunningdale and Sunninghill and South Ascot, which have broadly similar characteristics. The assistant commissioners felt that although transferring the ward of Windlesham from Surrey Heath to Windsor would cross the Royal Borough of Windsor and Maidenhead into the County of Surrey, moving Windlesham would be a more appropriate proposal than removing the ward of Chalvey from Slough. This option would also avoid removing a Bracknell ward from the existing Bracknell constituency, and would have no knockon effect further into Surrey. Furthermore, as pointed out by Aaron Fear (BCE-30739), Berkshire no longer has a county council. In order to satisfy themselves, our assistant commissioners also visited the area to see the links on the ground. which underlined their view that this would be the best solution to address the low electorate in Windsor constituency. They accordingly recommended the transfer of the Windlesham ward to the Windsor constituency.

**3.31** We accept the recommendation for a revised Windsor constituency that takes in the Surrey Heath ward of Windlesham. However, we note that this approach was

not specified in any of the responses to the initial proposals, apart from the Pirate Party's more radical proposal (BCE-30175). We would therefore welcome representations from the local community on whether our revised proposal strikes the best balance, based on the criteria to which we work.

**3.32** We endorse the assistant commissioners' recommendation that the constituencies of Maidenhead and Bracknell remain unchanged.

#### Surrey

**3.33** To reduce the numbers of electors in Esher and Walton, the initial proposals transferred Oxshott and Stoke D'Abernon ward to Mole Valley. To increase the numbers of electors in Spelthorne, the initial proposals took the ward of Chertsey St. Ann's from Runnymede and Weybridge constituency. Byfleet was then proposed to transfer from Woking to allow Runnymede and Weybridge to meet the permitted electorate range, which then led to the proposed transfer into Woking of Bisley ward (from Surrey Heath) and Send ward (from Mole Valley). The Labour Party (BCE-30359, BCE-31969, and BCE-40901) supported the Commission's initial proposals in their entirety, while the Conservative Party (BCE-30308, BCE-31975 and BCE-40878) and Liberal Democrat Party (BCE-28287 and BCE-31973) submitted counter-proposals.

**3.34** Substantial objection was received from local residents to the transfer of Chertsey St. Ann's ward to Spelthorne. Malcolm S. Loveday (BCE-20929) wrote on behalf of the Committee of The Chertsey Society to voice its concerns over dividing

the town of Chertsey 'down the middle of Guildford Street which is widely regarded as the town's 'High Street'.' Mr Loveday's submission was supported by residents (Joanne Whaley, BCE-25401, Neil Postance, BCE-25986 and William Moss, BCE-27261). Richard Dodd (BCE-26603) went further in his submission by pointing out that 'Chertsey has the River Thames as a significant geographic factor and the town is bounded by two motorways, the M3 and M25. Surely these natural and man made boundaries can be used to a greater extent to create constituencies that do not tear Chertsey apart.'

**3.35** Councillor Myles Willingale (BCE-38078) suggested transferring Egham Hythe ward to Spelthorne in place of Chertsey St. Ann's ward, on the basis of some urban continuity with Staines. Other alternatives were taking Walton Central ward from the existing Esher and Walton constituency (Jonathan Stansby, BCE-17012), although this would split Walton, or taking Thorpe ward, as proposed by the Conservative Party's counter-proposal (BCE-30308, BCE-31975 and BCE-40878).

**3.36** We also received representations requesting the ward of Send, which had been transferred from Mole Valley to Woking under the initial proposals, be transferred instead to Guildford (Linda Parker, BCE-34765). The assistant commissioners did not consider this proposal to be viable as this would result in Send ward becoming detached if placed within the Guildford constituency. We agree with the assistant commissioners' decision not to recommend any changes to the constituency of Guildford.

**3.37** Respondents highlighted the fact that the initial proposals for Woking left both Bisley and Byfleet as 'orphan wards'5 from their respective local authorities (The Conservative Party, BCE-40878). Opposition to the transfer of Bisley ward to Woking pointed to cultural and geographical ties with the West End ward that would be split, including West End Parish Council which includes both Bisley and West End wards (Raymond Colvin, BCE-35608). Similarly, there was opposition to separating Byfleet from West Byfleet and Pyrford wards, with evidence provided from community groups that covered all three wards (Simon Ashall, BCE-29318, Pauline Hedges, BCE-29665 and Linda Kemeny, BCE-29441). Simon Ashall (BCE-29318) also commented on the strong transport links between Byfleet and Woking, stating that '... transport links both road and rail show a far greater link between Byfleet and Woking than Bisley or Send, particularly to Woking urban area, where the A245 follows the line of the railway and canal that are longstanding boundaries and features of the area'.

**3.38** It was suggested that Send ward should be transferred to Guildford rather than Woking (Frank Anayi, BCE-19015 and Linda Parker, BCE-34765). Local evidence was received to support the retention of Send in the Mole Valley constituency, contrasting the semi-rural nature of Send and the Mole Valley with the largely urban nature of Woking, and pointing to the natural geographical boundaries of the River Wey and Wey Navigation (lain Wakeford, BCE-14423). Reverend Tony Shutt (BCE-34821), a vicar from Send ward, argued that the parishes of Send

and Ripley (currently in the Lovelace ward of Mole Valley) and the northern part of Clandon have historically shared social and geographical features of their identity. Reverend Shutt asked '... the question of what is best for Send. As a semi rural village, divided from Woking by the River Wey and Wey Navigation, Send has more in common with most of the more rural Mole Valley than most of the far more urban and densely populated Woking. Send would have less sense of cohesion with Woking than it has become accustomed to experiencing with Mole Valley.' The assistant commissioners did not consider this proposal to be viable, as it would leave Send as a detached ward, and would extend disruption to the otherwise unchanged existing constituency of Guildford.

**3.39** There were a small number of mixed views about moving Oxshott and Stoke D'Abernon ward from Esher and Walton to Mole Valley. Opponents such as Susannah Cunningham (BCE-33239) and Ian Nelson (BCE-21128) maintained that the River Mole forms a natural boundary between the two constituencies, and emphasised the ward's shopping and recreational ties to Cobham.

**3.40** The counter-view, while noting the ties with Cobham, recognised the absence of an ideal solution in the area and supported the initial proposals. Andrew Kelly (BCE- 28461), Elmbridge Borough Councillor for Walton North and the Chairman of Walton Central and North Conservatives, stated: 'There is no ideal solution here. In a perfect world Cobham would be in the same constituency and [as] Oxshott & Stoke D'Abernon. However,

<sup>&</sup>lt;sup>5</sup> 'Orphan ward' refers to a clear minority of wards (usually just one ward) from one local authority, in a constituency where the overwhelming majority of wards are from another local authority.

considering the other options. I do strongly support the Commission's draft proposal to move the Oxshott & Stoke D'Abernon ward out of the constituency.'

**3.41** The Conservative Party proposed (BCE-30308, BCE-31975 and BCE-40878) that Thorpe ward be transferred from the existing Runnymede and Weybridge constituency to Spelthorne in place of Chertsey St. Ann's ward, and that Hersham South ward should then be moved from the existing Esher and Walton constituency to Runnymede and Weybridge. This counter-proposal attracted both support and opposition at the secondary consultation stage.

**3.42** The opposition, while noting that some disruption was necessary, expressed the view that splitting Hersham was less preferable than splitting communities elsewhere in the area (Andrew Kelly, BCE-28461 and BCE-33325). However, on balance, the assistant commissioners agreed with the view that this solution is less disruptive to Surrey as a whole, and addresses the main concerns raised in the initial proposals, by allowing the wards of Bisley, Byfleet, Chertsey St. Ann's, Oxshott and Stoke D'Abernon, and Send all to revert to their respective existing constituencies. As stated by Woking Borough Councillor Mark Pengelly (BCE-35818), this recommended revised proposal '... would achieve much of the required change without a subsequent domino effect on neighbouring constituencies'. The assistant commissioners therefore recommended the adoption of the Conservative Party counter-proposals for Surrey, with the sole amendment to transfer Windlesham ward to Windsor constituency (as

described under the Berkshire section above). Following the recommended revisions, there would be only three changes to existing constituencies in Surrey, compared with the six changed constituencies in the initial proposals.

**3.43** There was no significant comment on the initial proposals in respect of East Surrey, Reigate, and South West Surrey, which would remain unchanged from the existing constituencies. We therefore agree with the assistant commissioners' recommendation not to change the proposals for these constituencies.

**3.44** We agree with the assistant commissioners' recommendations for Surrey.

### Brighton and Hove, East Sussex, Kent, and Medway

**3.45** Of the 25 existing constituencies in this sub-region, just eight have electorates within 5% of the electoral quota. With only three above the permitted electorate range, there are 14 constituencies below it, in consequence of which the overall number of constituencies reduces by one to 24.

**3.46** Of the eight within the permitted range, the Commission's initial proposals changed all but two (Hastings and Rye, and Sittingbourne and Sheppey), although only minor change was proposed in four (Dartford, Folkestone and Hythe, Gillingham and Rainham, and Rochester and Strood), and local authority ward boundary changes have slightly altered Eastbourne, leaving 17 constituencies with significant change proposed.

#### **Brighton and Hove**

**3.47** The proposals for this area prompted more opposition than anywhere else in the region, with the key objections to the proposals being: the division of Hove between two constituencies; having a 'Brighton North' constituency with no connection to the sea, and no meaningful community ties or transport links between its east and west parts; and dividing Woodingdean from the other 'Deans' areas of east Brighton, with which it shares strong links. There was also opposition to extending the eastern part of the Brighton East and Newhaven constituency to Seaford, where a number of respondents felt that their ties are more towards Eastbourne.

**3.48** The Hands Off Hove campaign (BCE-30144), opposing our initial proposal to transfer Hove Park ward to a Brighton North constituency, was signed by 4,515 individuals during our initial consultation period. As they said, 'Brighton and Hove may be partners in the formation of the city but they vigorously maintain their separate and distinct identities.' These sentiments were reflected across the bulk of representations mentioning Hove.

**3.49** We received a significant number of differing counter-proposals. The Green Party (BCE-36874) alone submitted four alternative options. However, nearly all major consultation responses, bar one discussed later, took the same general approach as the Commission, agreeing that it would not be appropriate to push disruption west or north into the largely settled West Sussex sub-region. Accordingly, the counter-proposals for

the area fell into one of two variants of extension east of Brighton: those which adopt the line of the Commission's initial proposal to extend the existing easternmost Brighton constituency further east along the coast, as far as Seaford; or those which instead extend the Brighton, Kemptown constituency north-east, to take in Lewes (putting Seaford in an Uckfield constituency). There are merits to both approaches, it being argued that Lewes has a community of interest with Brighton for shopping, commuting and leisure along the strong A27 road link and East Coastway rail line, and Seaford has links (such as school catchment areas) with Newhaven (proposed for inclusion with a Brighton constituency even in the Lewes variant).

**3.50** Our assistant commissioners advised us that the Seaford variant is more difficult to reconcile with attempts to address the concerns about splitting Hove in the west and 'the Deans' in the east of the city, there being no whole-ward solution which includes all of the Newhaven and Seaford wards.

**3.51** The Green Party put forward two whole-ward and two split-ward counter-proposals, the first whole-ward option being identical to that which the Commission had as its revised proposals in 2013, and the others being variants on that base: moving Queen's Park ward into the existing Brighton Pavilion constituency rather than Moulsecoomb and Bevendean ward in the second whole-ward proposal; splitting Queen's Park, and Regency wards in the first split-ward solution; and splitting only Regency ward in their second split-ward proposal. **3.52** One interesting counter-proposal (Neil Harding, BCE-29013, BCE-29021, BCE-32739, BCE-34032, BCE-34034 and BCE-34593) suggested a straight swap of Brunswick and Adelaide ward, and Withdean ward between the existing Hove and Brighton, Pavilion constituencies, with the latter also gaining Moulsecoomb and Bevendean ward. As a prime example of the Lewes variant, the remainder of the existing Brighton, Kemptown constituency would then be combined with the Newhaven wards and Lewes wards, plus the two wards of Kingston, and Ouse Valley and Ringmer, to form a Brighton East and Lewes constituency.

**3.53** Jonathan Rogers (BCE-38947) proposed a variant of this, keeping Withdean ward in the proposed Brighton North constituency, but increasing the number of electors in Hove by taking Eastbrook ward from East Worthing and Shoreham. This creates a knock-on effect in Worthing West, and Bognor Regis and Littlehampton constituencies, moving one ward from each eastwards along the coast. The assistant commissioners concluded that this was more disruptive to more existing constituencies than was necessary in order to satisfy the representations regarding Hove.

**3.54** In light of the particular complexities and number of alternatives presented for the area, the assistant commissioners visited the city, and observed that Woodingdean has closer links with the rest of 'the Deans' than it does with the centre of Brighton. Two other 'Deans', Bevendean and Roedean, are more closely linked to Brighton, with Bevendean in particular linking directly into Moulsecoomb, with no direct road link to the neighbouring

Woodingdean ward. The visit also demonstrated the difficulties in moving eastwest across the city itself, until reaching the seafront. Crossing from Hove Park to Withdean, across the Dyke Road, and moving further east, crossing steep valleys running north-south through the Westdene area of the city, strongly supported what had been stated in representations that Withdean and Hove Park wards should remain in separate constituencies. They also noted that Regency ward, although having a feel more of central Brighton than of Hove, is nonetheless more accessible to Hove residents than Withdean.

**3.55** The strength of evidence received during the consultations persuaded the assistant commissioners that a revised approach was necessary to provide a better solution for the proposed Brighton and Hove constituencies.

**3.56** In the west of the city, the volume and quality of evidence in representations suggested that Hove Park ward should be restored to the Hove constituency. The assistant commissioners therefore recommended this. The assistant commissioners recommended that St. Peter's and North Laine ward be returned to the central constituency, and Woodingdean restored to the eastern constituency, establishing greater equivalence of the central constituency with the existing Brighton, Pavilion constituency. This recommendation does need to retain Regency ward in the proposed western constituency to stay within 5% of the electoral quota without breaching the boundary with West Sussex (as discussed earlier). However, as Tom Beament of the Green Party (BCE-36874) said, 'although it is not ideal, in that it does not fully respect

the Hove/Brighton boundary, if one ward is to be added to the Hove constituency, then the Regency ward is the best fit'. The assistant commissioners also felt that this solution would see all three of the city's constituencies contain part of 'the heart of Brighton'.

**3.57** We agree with the assistant commissioners' recommendations for these revised western and central constituencies, as well as their recommendation to return the Woodingdean ward to the eastern Brighton constituency.

**3.58** Turning to the easternmost Brighton constituency, our assistant commissioners concluded that the Seaford variant, linking communities along the coast, would create a constituency which is more homogeneous than one that incorporated parts of Brighton with the more rural-facing county town of Lewes. In reaching this view, they noted in particular the evidence that pointed towards these communities being principally residential, with the coastline, sea defences and port activities to maintain (Michael Morton-George, BCE-29163), significant retirement populations (Douglas Murray, Wealden District Councillor, BCE-30629) and many shared issues, such as the congestion on the A259 (Roy Burman, BCE-33885). The assistant commissioners also noted the similarity in shape and connectivity between this proposed constituency moving eastwards from Brighton and those constituencies along the coast to the west of Brighton.

**3.59** However, the counter-proposals based on whole-ward solutions would require one of the Newhaven wards to be

omitted in order to remain within 5% of the electoral quota - and realistically only the Newhaven Valley ward can be considered if the resulting constituency is not to be left entirely split in two. Having visited the area. our assistant commissioners noted that this ward contains the main road link connecting the rest of Newhaven (and subsequently Seaford) with the proposed constituency. Removing this ward would, therefore, remove that main road link through the constituency, albeit only by a short distance. They also noted that removing Newhaven Valley ward was likely to divide the centre of the town of Newhaven.

**3.60** Given their concerns regarding the removal of this ward, the assistant commissioners investigated other solutions that followed the principle of a coastal constituency. They noted that by splitting the ward of Newhaven Denton and Meeching, with just polling district LIA moving from the proposed Brighton East and Newhaven to the proposed Lewes and Uckfield constituency, they could keep the centre of Newhaven together and retain the main road access running through the constituency. They felt that there were compelling reasons to do so, given that it also prevents disruption to existing Brighton and East Sussex constituencies that would be needed otherwise. By contrast, this one ward split allows a number of existing constituencies to see minimal change and more communities to be kept together in the same constituency.

**3.61** We considered these recommendations very carefully and, as mentioned earlier, are persuaded that the evidence suggests that the right principle is to propose a constituency

that brings together most if not all of the coastal area. However, we note that uniting all wards along the Peacehaven/ Newhaven/Seaford coastal area is not possible within the permitted electorate range. We have assessed two options to address this: the removal of Newhaven Valley ward into the proposed Lewes and Uckfield constituency (which would, in effect, be adopting the Green Party's proposals for the area), or the assistant commissioners' recommendation to split the ward of Newhaven Denton and Meeching. We find at this stage that the evidence and argument to split this ward is not compelling enough to persuade us, given our stated policy and our approach to splitting wards around the country, and the fact that a whole-ward solution exists in isolation for these two constituencies. We note that the ward-split proposal does not assist with providing a significantly better pattern over the larger sub-regional area, nor do we yet have any evidence from the local community that the wholeward solution affects local ties. Finally, we note that this proposal - suggested by the Green Party – has been publicly aired at our public hearing in Brighton (BCE-32663) and has been consulted on. We therefore reject the assistant commissioners' recommendation to split the ward of Newhaven Denton and Meeching, and propose to adopt the Green Party's solution for Brighton East and coastal areas extending east.

**3.62** With these relatively minor changes to the existing western and central constituencies, we believe that 'Hove and Regency' and the existing 'Brighton Pavilion' respectively would be appropriate constituency names. We feel the nature of the recommended changes to the

existing eastern constituency would be best reflected by retaining the existing 'Brighton Kemptown', with the addition of 'and Seahaven'.

#### **East Sussex**

**3.63** The Commission's proposed Eastbourne and Hastings and Rye constituencies were largely supported during both consultation periods. The rest of East Sussex was supported by both the Conservative Party (BCE-30308, BCE-31975 and BCE-40878) and the Labour Party (BCE-30359, BCE-31969 and BCE-40901), with the Liberal Democrat Party (BCE-28287) opposing, instead suggesting a dumbbell-shaped High Weald constituency.

**3.64** Other representations did not support the initial proposals approach to Lewes and Uckfield, perceived locally to be too large a constituency north-south for effective representation. John Bryant's (BCE-28072) counter-proposal addressed this by transferring Buxted and Maresfield, Forest Row, Framfield, and Hartfield wards to his alternative cross-county constituency, Tunbridge Wells and Crowborough. This counter-proposal also delivers less change to Bexhill and Battle and brings Hailsham back into Lewes and Uckfield.

**3.65** The assistant commissioners recommended the adoption of the John Bryant counter-proposal for East Sussex (as this satisfies those representations which were concerned with the geographic size of the constituency), with some minor adjustment due to the revised configuration of the Brighton Kemptown and Seahaven constituency (described

above). Specifically, Horam ward transfers from Lewes and Uckfield to Bexhill and Battle (linking it with Heathfield, as suggested by representations such as Virginia Roberts, BCE-16281), and Ticehurst and Etchingham ward transfers from Bexhill and Battle to the reconfigured constituency named 'High Weald' in our initial proposals (which is discussed further in the Kent section below). We agree with these recommendations.

#### Kent, and Medway

**3.66** With regard to north Kent and the Medway, the Conservative Party's counter-proposal for Rochester and Strood (BCE-30308, BCE-31975 and BCE-40878), to retain Higham in the Gravesham constituency, was heavily supported, as were the Commission's initial proposals for Chatham and The Mallings, Dartford, Gillingham and Rainham, and Sittingbourne and Sheppey. There appeared to be coordinated campaigns covering the three Medway constituencies. The Medway Labour Group's counter-proposal (BCE-20508, BCE-29214, BCE-32515, BCE-40879, BCE-40882 and BCE-40980) was more radical but did not deal with knock-on effects in the proposed Maidstone, Sevenoaks, and Tonbridge and The Weald constituencies.

**3.67** There was both support and opposition to the Lordswood and Capstone ward being moved to the Gillingham and Rainham constituency, but the balance of opinion was to oppose this move, notably in a 261-signature petition (Medway Labour Group, BCE-40980). The most heavily populated part of the ward is directly joined to both the Princes Park and Walderslade wards in the Chatham

and The Mallings constituency, rather than with Hempstead and Wigmore ward. There is a substantial green space between this area and the boundary with the existing Gillingham and Rainham constituency.

**3.68** The other opposition to this proposal was the allocation of Wateringbury ward to Chatham and The Mallings. Representations stated that it should sit with Tonbridge, as its links go west to Tonbridge, rather than north.

**3.69** The assistant commissioners were persuaded that the Conservative Party counter-proposal to retain Higham ward in Gravesham constituency (with Ash and New Ash Green ward consequentially returning to Sevenoaks constituency) struck a better overall balance of our criteria. While recognising the evidence presented about the ties which exist between Lordswood and Capstone ward and the proposed Chatham and The Mallings constituency, they noted that shifting this ward out of Gillingham and Rainham constituency would leave both constituencies outside the permitted electorate range.

**3.70** The assistant commissioners therefore recommended adoption of the Conservative Party counter-proposals for north Kent, with the sole amendment of transferring Wateringbury ward to the Tonbridge constituency, which can be achieved in isolation and reflects the representations from that area. We agree.

**3.71** In relation to central Kent and the Weald, there was opposition to the initial proposals for a High Weald constituency straddling East Sussex and Kent, with the view being that it was too large and would

be difficult for a Member of Parliament to deal with, with no community of interest, other than that all parts are very rural in nature. As noted in the East Sussex sub-section, John Bryant (BCE-28072) suggested an alternative crossing of the Kent/East Sussex boundary, creating a Tunbridge Wells and Crowborough constituency, together with a reconfigured Mid Kent constituency, arguing that these give more compact and regularly shaped primarily rural constituencies.

**3.72** There was opposition to the initially proposed Tonbridge and The Weald constituency, in that it was poorly aligned with both the existing constituency and local authority. Additionally, local opposition from Edenbridge (Mary McCarten, BCE-16412) argued that Edenbridge looks towards Tonbridge for education and has good road and rail links in that direction.

**3.73** Both the Labour Party (BCE-30359) and the Liberal Democrat Party (BCE-28287) proposed that Park Wood ward should be included in the Maidstone constituency, as this would maximise the number of urban Maidstone wards in the constituency.

**3.74** The assistant commissioners were persuaded by John Bryant's counter-proposals for a Tunbridge Wells and Crowborough constituency and a separate Mid Kent constituency. They therefore recommended these revised constituencies, with two minor amendments to his Mid Kent constituency, specifically including the Ticehurst and Etchingham ward in both the composition and name of the Mid Kent and Ticehurst constituency (as noted in the East Sussex section above), and transferring Park Wood ward to Maidstone. Apart from the latter change, the assistant commissioners recommended no other changes to the Maidstone constituency in our original proposals.

**3.75** The assistant commissioners also recommended the adoption of John Bryant's proposed constituencies of Tonbridge and Sevenoaks, though again with minor amendments (to reflect the representations about Edenbridge), specifically transferring the wards of Edenbridge North and East, and Edenbridge South and West from Sevenoaks to Tonbridge, and transferring the ward of Wrotham, Ightham and Stansted from Tonbridge to Sevenoaks (to balance the transferred Edenbridge electors).

**3.76** We agree with the assistant commissioners' recommendations for central Kent and the Weald.

**3.77** With regard to east Kent, we received objections relating to the removal of Little Stour and Ashstone ward and Sandwich ward from South Thanet. Residents such as Margaret Russell (BCE-24192) mentioned 'The close relationship between Sandwich and Ramsgate in terms of Shopping, tourism and transport links.' Some representations indicated they felt that Sandwich is more closely linked to Dover than Thanet, such as Jim Fitt (BCE-34654): ' ... it makes no sense to separate Sandwich, Ash and Wingham from Dover and Deal... Both Dover and Deal have been the main shopping and social centres for these villages (and Sandwich). The community

connections between us all are very strong; in fact they/we are all part of the same community. Good road and rail links exist between us all and are well used.'

**3.78** The Conservative Party counter-proposals (BCE-30308, BCE-31975 and BCE-40878) retain Sandwich in Thanet East, but move Little Stour and Ashstone (LS&A) to Dover. This second move runs counter to other representations, such as Richard Rowson (BCE-24296), who stated: 'In Wingham and other LS&A villages most of our shopping and other business, including rail and bus connections, is with Canterbury.'

**3.79** While the assistant commissioners considered that the Conservative counterproposal for this area was a less than ideal solution for the Little Stour and Ashstone ward, which has links to both Canterbury and Sandwich, they noted that it does remove potential knock-on effects that would disrupt towns in the initially proposed North Kent Coastal constituency. The assistant commissioners therefore recommended the Conservative Party's counter-proposals for the composition of the constituencies of Canterbury and Faversham, North Kent Coastal, Dover, and Thanet East. We agree with these recommendations.

**3.80** The name of the Dover constituency was contentious, with strong support for inclusion of the name Deal in the constituency. The assistant commissioners therefore recommended the name of Dover and Deal for this constituency, and we agree. The name of Thanet East also appeared not to be so appropriate for the composition of the revised constituency: assistant commissioners initially suggested

North East Kent Coastal, but we eventually agreed their further suggestion of East Thanet and Sandwich.

**3.81** There was no significant comment on the initial proposals in respect of Hastings and Rye, which would remain unchanged from the existing constituency, or in respect of Ashford, and Folkestone and Hythe. We therefore agree with the assistant commissioners' recommendation not to change the proposals for these constituencies.

## West Sussex

**3.82** There are eight constituencies in West Sussex. The existing constituencies of Arundel and South Downs, Bognor Regis and Littlehampton, East Worthing, Horsham, Shoreham, and Worthing West have an electorate within 5% of the electoral guota. The elector numbers of Mid Sussex and Chichester are above the 5% limit and Crawley is below the 5% limit. Although the scale of change proposed in each constituency was minor, seven of the eight constituencies were proposed to change, with only East Worthing and Shoreham constituency proposed as completely unchanged (although the proposals for Worthing West merely sought to realign the constituency boundary with the changed ward boundaries of Arun District Council).

**3.83** To increase the number of electors in Crawley, we proposed transferring Copthorne and Worth ward from the Horsham constituency. To reduce the numbers in Chichester and Mid Sussex, we proposed to transfer the wards of Bolney and Plaistow respectively into the Arundel and South Downs constituency.

As this would have left the latter too large, we consequentially proposed to transfer the Barnham ward to Bognor Regis and Littlehampton constituency.

**3.84** Representations for West Sussex were generally broadly supportive. The Conservative Party (BCE-30308, BCE-31975, BCE-40878) and Liberal Democrat Party (BCE-28287 and BCE-31973) supported all the Commission's proposals for the county. The Labour Party's (BCE-30359, BCE-31969 and BCE-40901) only objection was to the inclusion of Copthorne and Worth ward in Crawley, noting the boundary of the M23 motorway, and proposing instead to transfer Rusper and Colgate from Horsham, citing stronger ties and road links. The Conservative Party (BCE-40878) refuted this suggestion, stating as part of their submission: 'It is clear that Copthorne has links with Crawley particularly along the A264. It has no links with the town of Horsham, whereas Rusper and Colgate immediately abuts Horsham and has several road links between them.'

**3.85** Crawley Borough Council's Governance Committee (BCE-27169) proposed splitting the ward of Rusper and Colgate by taking the polling district for Kilnwood Vale from Rusper and Colgate ward, as well as including the Mid Sussex District ward of Copthorne and Worth in a Crawley constituency. The argument centred on including an as yet unfinished urban development currently in the Horsham constituency in the proposed Crawley constituency.

**3.86** The Pirate Party (BCE-30175) proposed a radically reorganised set of constituencies across West Sussex, suggesting that its proposal better

fitted local community ties, avoided constituencies crossing the significant geographical boundary of the South Downs and removed a constituency which covers portions of four different local authorities, replacing it with constituencies which cover at most two local authorities.

**3.87** Respondents also suggested that the Shoreham wards of East Worthing and Shoreham would sit better with the Hove constituency, citing the natural border of the River Adur and the airport in the west (Em Young, BCE-17585 and Rob Ellison, BCE-15389).

3.88 Having considered the representations made, our assistant commissioners believed the significant level of response supporting the initial proposals demonstrated the lack of iustification for either a radical overhaul of West Sussex constituencies or the creation of a constituency that straddles West Sussex and the unitary authority of Brighton and Hove. They did not consider Crawley Borough Council Governance Committee's proposal to have exceptional and compelling circumstances to justify splitting the ward of Rusper and Colgate and found the evidence favouring Copthorne and Worth to be more persuasive. We agree with our assistant commissioners' conclusion.

**3.89** There was no significant comment in the initial proposals in respect of Worthing West, which realigned the constituency boundary with the changed ward boundaries of Arun District Council. We therefore agree with the assistant commissioners' recommendation not to change the proposals for this constituency.

### Buckinghamshire and Milton Keynes

**3.90** Of the seven existing constituencies in Buckinghamshire and Milton Keynes, four (Aylesbury, Beaconsfield, Buckingham, and Wycombe) are currently within 5% of the electoral quota. Of the remaining three, Milton Keynes North and Milton Keynes South are above the statutory maximum electorate and Chesham and Amersham is below the statutory minimum.

**3.91** In our initial proposals, we proposed moving the Stony Stratford and Wolverton wards from Milton Keynes Borough into the existing Buckingham constituency, and creating new configurations for two newly named Milton Keynes Bletchley and Milton Keynes Newport Pagnell constituencies. Buckingham in turn was therefore proposed to transfer the wards of Edlesborough, Oakfield & Bierton, Pitstone & Cheddington, Watermead, and Wingrave to Aylesbury, which could then afford to transfer the wards of Lacey Green, Speen and the Hampdens, and Greater Hughenden to Chesham and Amersham, bringing it into the permitted electorate range. Our proposed Wycombe constituency included the wards of Bledlow and Bradenham, and Stokenchurch and Radnage from Aylesbury, to keep the latter within the required electorate range. This left just the constituency of Beaconsfield unaltered.

**3.92** Our proposals for this sub-region received support from the Liberal Democrat Party (BCE-28287). The Conservative Party (BCE-30308) counter-proposed swapping Waddesdon ward for Wing ward between the

proposed Buckingham and Aylesbury constituencies and suggested alternative names for the proposed Milton Keynes Bletchley and Milton Keynes Newport Pagnell constituencies. The Labour Party (BCE-30359) agreed with all our proposals except moving Wolverton, arguing that there may be alternatives. In their submission to the secondary consultation, the Labour Party (BCE-40901) also disputed the Conservative Party's counter-proposal, saying: 'We note here the counter-proposal of the Conservatives as set out at the Lead Public Hearing in Guildford to include the Waddesdon ward in Aylesbury CC and the Wing ward in Buckingham CC which, at least in respect of the former, we believe has no obvious rationale.'

**3.93** There was opposition from some respondents to moving any Milton Keynes wards to a non-Milton Keynes constituency, but as both Milton Keynes constituencies are too large, there is no alternative under the statutory rules. A small number of counter-proposals suggested crossing the region boundary, transferring rural Milton Keynes wards to either Northamptonshire in the East Midlands (Adrian Bailey, BCE-30315) or Bedfordshire in the Eastern region. Consideration was given by the assistant commissioners to this suggested sharing of Milton Keynes wards with the Eastern or East Midlands regions, but doing so would not in their view, nor in the view of the assistant commissioners for those other regions, help in the configuration of constituencies in those parts of those regions in line with the statutory factors. Our stated policy - which has received strong support – is to use the European regions as a basis for our recommendations,

and only depart from that policy in light of very compelling reasons to do so. We agree with our assistant commissioners' recommendations that such reasons do not exist here and we have therefore decided that the South East regional boundary should not be crossed with any other region.

**3.94** An alternative proposal suggested Tattenhoe ward be moved to Buckingham, in place of Wolverton (Councillor Martin Gowans, BCE-19549), citing the latter as a more established area with long-standing ties to the rest of Milton Keynes, whereas Tattenhoe sits on the A421, a direct road link to Buckingham. It was also notable that Wolverton is separated from Stony Stratford and Buckingham by the A5. Our assistant commissioners were persuaded by the argument and evidence put forward for this alternative, and therefore recommended that Wolverton be included in Milton Keynes Bletchley, with Tattenhoe instead being included in the Buckingham constituency.

**3.95** There were several suggestions that the names for the two Milton Keynes constituencies were unsuitable, and that compass points would be preferred. Our assistant commissioners recommended the names be changed to Milton Keynes North East and Milton Keynes South West.

**3.96** We received a small number of representations arguing that Lacey Green, Speen and the Hampdens ward has links with The Risboroughs ward and to Wycombe, and that The Risboroughs has links to Aylesbury rather than to Chesham and Amersham, or Buckingham, as in our

initial proposals. A suggested attempt to address this in a counter-proposal (Councillor Graham Peart, BCE-16924) relied upon splitting the town of Hazelmere between Chesham and Amersham, and Wycombe. Our assistant commissioners did not believe the evidence is sufficiently compelling to justify such a split, rather than allocating whole communities. As none of those raising concerns have been able to identify a satisfactory alternative that does not split wards, we have therefore determined to make no change to the initial proposals in this area.

**3.97** The assistant commissioners were not persuaded by the Conservative Party counter-proposal (BCE-30308, BCE-31975 and BCE-40878) to move Waddesdon ward to Aylesbury, and Wing ward to Buckingham. They agreed with the Labour Party view that there was 'no obvious rationale' for this change. Furthermore, they noted that making this change would seem to produce an odd shape, leaving the southern wards of the Buckingham constituency rather isolated from the rest of the constituency.

**3.98** In summary, the assistant commissioners recommended revising the initial proposals for this sub-region so that Tattenhoe ward is transferred to Buckingham, and Wolverton ward to Milton Keynes Bletchley, and that the names of the Milton Keynes constituencies be changed to Milton Keynes North East, and Milton Keynes South West. In all other respects, they make no changes to our initial proposals, and we accept their recommendations.

## Hampshire, Portsmouth, and Southampton

**3.99** There are currently 18 constituencies in Hampshire, eight of which (Basingstoke, Eastleigh, Fareham, Gosport, Meon Valley, New Forest East, North East Hampshire, and North West Hampshire) have electorates within 5% of the electoral quota. The electorate of the other 10 constituencies are below the permitted electorate range. This generally low electorate necessitates a reduction in the number of constituencies to 17. Of the national parties, the Labour Party (BCE-30359, BCE-31969 and BCE-40901) and the Liberal Democrat Party (BCE-28287 and BCE-31973) supported the initial proposals for Hampshire in their entirety, while the Conservative Party counterproposed only a different configuration for Southampton, still retaining both constituencies within the city boundaries (BCE-30308, BCE-31975 and BCE-40878).

#### Hampshire

**3.100** There was opposition to the initial proposals to include the Dun Valley and Blackwater wards in the New Forest East constituency. Representations such as Robin Garrett (BCE-15062) and Marcus Durham (BCE-23284) stated that residents of the Dun Valley area had strong ties to Romsey, Andover, Salisbury or Winchester, rather than south to the New Forest communities, with the east-west alignment of roads in the area being highlighted. Counter-proposals put forward were to either cross the regional boundary into Wiltshire, or to substitute for these two wards the ward of Chilworth, Nursling and Rownhams (Dun Valley Parish Councils, BCE-27031, James Strachan, BCE-16103

and Graham Pointer, BCE-35429). The assistant commissioners were persuaded by the evidence put forward relating to the severing of local ties and therefore recommended that the Dun Valley and Blackwater wards be retained in a Test Valley constituency.

3.101 The assistant commissioners did not see a sufficiently compelling reason to cross the regional boundary into Wiltshire and therefore recommended instead transferring the ward of Chilworth, Nursling and Rownhams into New Forest East, while recognising that residents of the Chilworth, Nursling and Rownhams ward may feel limited affinity with the rural areas of the New Forest East constituency. However, they believed the ward may have more similarities with the built-up area in and around Totton, which is already within the existing New Forest East constituency. We agree with the assistant commissioners' assessment and recommendations for these two constituencies, although we recognise this is a finely balanced judgement on which we would welcome further evidence in response to our revised proposals.

**3.102** There were also objections to the inclusion of Compton and Otterbourne ward and Colden Common and Twyford ward in the proposed Test Valley constituency, citing close ties of these wards to Winchester. Adrian Walmsley (BCE-23497) proposed a solution that split the Compton and Otterbourne ward, so that just the polling district containing the Compton and Shawford Parish Council could be transferred back to Winchester. An alternative proposal from Hursley Parish Council (BCE-25257) was to transfer Sparsholt ward and Wonston

and Micheldever ward to the Test Valley constituency in place of Compton and Otterbourne ward and Colden Common and Twyford ward. While recognising the community links between Winchester and areas to its south and west, our assistant commissioners did not feel that there were sufficiently compelling reasons to justify the suggested splitting of the Compton and Otterbourne ward. In considering the counter-proposals to swap wards north of Winchester for those south of the city, the assistant commissioners advised us that this would merely be relocating the issue, and therefore did not recommend adopting these changes. In the absence of further evidence we are therefore not minded to alter our initial proposals in this area.

**3.103** Further north, there were some objections from areas to the south and west of Andover to our initial proposal to transfer them into the Test Valley constituency. A counter-proposal from Charles Milner-Williams (BCE-18662) suggested not including in a North West Hampshire constituency the wards of Pamber and Silchester, Bramley and Sherfield, and Sherborne St. John, which would then allow the wards of Anna, Amport, and Penton Bellinger to be retained in the North West Hampshire constituency, but it did not address how the consequential shortfall in electors in Test Valley might then be dealt with. There were also a number of representations opposed to transferring the two Crookham wards into the Aldershot constituency, which focused on how this separated them from Fleet, with which they are said to have closer ties. Counter-proposals - such as those from the then Member of Parliament Sir Gerald Howarth (BCE-33404), from Jim Daniell (BCE-21214), and from the

Pirate Party (BCE-30175) – suggested adding Yateley East ward into the existing Aldershot constituency instead.

**3.104** After consideration of the evidence. the assistant commissioners were not persuaded that splitting the Yateley community between two constituencies would be preferable to keeping the Crookham wards together in a single constituency (albeit a different one than Fleet). They were not able to reconcile the different counter-proposals into a solution that does not give rise to problems elsewhere in northern Hampshire, and therefore recommended no change to our initial proposals in these areas. In the absence of any such satisfactory overall counter-proposal, we agree with their recommendation.

**3.105** There was a mixture of support (Richard Ryan, BCE-22182) and opposition (Kay Gale, BCE-22972) to the addition of Whiteley ward to the Fareham constituency. The assistant commissioners observed that Whiteley road links are to the south and west, into the Fareham constituency, and therefore found that the ward should be moved to Fareham. We agree with the assistant commissioners' conclusion.

**3.106** There was no significant comment on the initial proposals in respect of Basingstoke, Eastleigh, and Gosport, which would remain unchanged from the existing constituencies, or in respect of East Hampshire, Havant, New Forest West, and North East Hampshire. We therefore agree with the assistant commissioners' recommendation not to change the proposals for these constituencies.

#### Portsmouth

**3.107** In Portsmouth, our initial proposals expressly sought views on whether Baffins or Nelson ward was best to move into the Portsmouth South constituency, to which there was a mixed response. Support for the inclusion of Nelson ward – such as that from Stuart Crow (BCE-32268) – highlighted how that would unite the interests of the harbour area, and include the whole of the Buckland community.

**3.108** Conversely, those preferring the inclusion of Baffins ward, for example the Pirate Party (BCE-30175), stated that it had closer ties south to Milton ward than north to Copnor (with which there was a clear industrial and main road boundary), while Nelson ward had strong connections east and a clear boundary to its south: 'There are strong links from Nelson ward to both Hilsea and Copner wards (along the A3, A2047, Stubbington Avenue, Labernum Grove and Chichester Road) whereas the Nelson-Charles Dickens ward boundary primarily goes through the non-residential areas of the Harbour and the Dockyard.' The Baffins option was further supported by Darren Sanders, City Councillor for Baffins ward. During his oral submission at the public hearing held in Portsmouth (BCE-32270), he maintained that Tangier Road, the main road which runs through Baffins ward, was historically the constituency boundary of Portsmouth South.

**3.109** The assistant commissioners considered stronger arguments had been made by those favouring the Baffins option, and therefore recommended the inclusion of Baffins ward with the

Portsmouth South constituency, and Nelson ward in the Portsmouth North constituency. We agree.

#### Southampton

**3.110** In Southampton, the key point of contention has been over the most appropriate place for an enlarged Southampton Itchen constituency to cross the River Itchen.

**3.111** Paul Lewzey, City Councillor for Peartree ward in Southampton, supported our initial proposals to extend into Bevois ward from the existing southern crossing in the Bargate ward. As part of his oral evidence (BCE-32218), he noted that these wards share similar characteristics and are 'connected by some really significant road bridges: we have the new Itchen Bridge ... and for Bevois ward there is a similar bridge, not quite so high, that actually connects Bevois to areas around Bitterne Park and Peartree, so it fits quite neatly.'

**3.112** At the same public hearing, Councillor Simon Letts (BCE-32233), leader of Southampton City Council, also supported this approach. In relation to the consequential ability to keep together the wards of Bassett, Portswood, and Swaythling, he added: 'If you look at Portswood and Bassett and Swaythling, ... effectively, they surround the university campus which sits at the centre of those three seats and combining them together makes it very much more simple for an MP to operate.' Caroline Nokes, Member of Parliament for the existing constituency of Romsey and Southampton North, also welcomed the initial proposals (BCE-25539 and BCE-32254), as they retained in a

single constituency the community resident in the Flower Roads estate, straddling both the Bassett and Swaythling wards.

**3.113** By contrast, we received a petition of 103 signatures, submitted by Sukhbir Singh (BCE-28687), objecting to the Commission's proposals, asserting that '... Bevois has always had stronger ties with communities, schools, local services and charities to the west of the City (Southampton Test) rather than across the river (Southampton Itchen) which feels alien to us and would cause confusion and nuisance.' The petition contained a counter-proposal which would keep Bevois ward in Southampton Test and transfer Swaythling ward from Southampton Test to Southampton Itchen. The Conservative Party (BCE-30308, BCE-31975 and BCE-40878) proposed that the wards of Bevois and Bargate be kept together and join Southampton Test, and the wards of Basset and Swaythling be placed in the Southampton Itchen constituency.

**3.114** To test the strength of these competing arguments, the assistant commissioners toured the area in person. They reported to us that the visit endorsed the evidence relating to the Flower Roads estate spanning both Bassett and Swaythling wards, and that Portswood, Bassett, and Swaythling wards shared a common interest in the University of Southampton. In terms of crossings of the river in this part of the city, there appeared to be only a small bridge on Woodmill Lane providing a very limited connection between Swaythling and Bitterne Park. Further south, although the river itself was a natural boundary, assistant commissioners advised us that there were

significantly better crossings via the busy Itchen and Northam bridges, providing good connectivity between the wards either side of the river. It was also noted that there seemed to be a strong continuity between Bargate and Bevois wards.

**3.115** On this basis, the assistant commissioners considered the stronger case lay with those supporting our initial proposals, and therefore recommended no change to those initial proposals in Southampton. We agree.

## Isle of Wight

**3.116** In our initial proposals, we proposed two constituencies on the basis of an east-west split, with each being roughly equal in geographical size and having a mix of coastal and rural areas. There were some consultation responses opposed to splitting the island into two constituencies, however this is a mandatory requirement under the legislation.

**3.117** The east-west split approach received very wide-ranging support, from the Conservative Party, the Labour Party nationally, the Liberal Democrat Party, local councils and political groups, such as Havenstreet and Ashey Parish Council (BCE-27218) and Sandown Independents Party (BCE-30580), and individuals such as Joe Cody (BCE-19908) and Juliet Behrendt (BCE-17794). Liz Kingston (BCE-26123) put forward a slight variation on the initial proposals, proposing instead transferring the electoral division of Wootton Bridge to the proposed Isle of Wight East constituency. During the secondary consultation period, this was supported by I. Bond (BCE-37938), who noted that the

initial proposals separated Wootton from Binstead and Fishbourne, cutting across local ties between those areas.

**3.118** The Isle of Wight Council Labour Group (BCE-26320) proposed instead a fundamentally different north-south divide, on the basis that the communities on the north side of the island look to the Solent and mainland, while the communities on the south side (including the centrally located town of Newport) look to the English Channel.

**3.119** Support for the initial proposals, and the evidence contained within the representations, persuaded the assistant commissioners that it would not be appropriate to recommend a radically different north-south split, but they were persuaded by the case for a minor adjustment to include Wootton Bridge within the Isle of Wight East constituency, which they accordingly recommended. We endorse the assistant commissioners' recommendation.

## Oxfordshire

**3.120** Of the six existing constituencies in Oxfordshire, three (Henley, Oxford West and Abingdon, and Witney) are currently within 5% of the electoral quota. Of the remaining three constituencies, Banbury and Wantage are both over the permitted electorate range and Oxford East is below it.

**3.121** Our initial proposals were to move Fringford, Launton, Ambrosden and Chesterton, and Wallingford wards from Banbury and Wantage to a renamed 'Henley and Thame' constituency; to transfer the wards of Wheatley,

Garsington and Horspath, and Sandford and the Wittenhams from the existing Henley constituency to Oxford West and Abingdon; and to transfer the wards of North and St. Margaret's from Oxford West and Abingdon to Oxford East. Witney would be unaltered.

3.122 The initial proposals received support from the Conservative Party (BCE-30308, BCE-31975 and BCE-40878) with the exception of the names of the Wantage constituency, which they suggested should be called 'Wantage and Didcot'. The Labour Party (BCE-30359, BCE-31969 and BCE-40901) proposed moving Jericho and Osney ward from Oxford West and Abingdon to Oxford East, in preference to St. Margaret's ward. Conversely, the Liberal Democrat Party (BCE-28287 and BCE-31973) proposed moving Wheatley, Garsington & Horspath, and Sandford & the Wittenhams wards from Oxford West and Abingdon to Oxford East, allowing Oxford West and Abingdon to retain North and St. Margaret's wards, but also gain Carfax and Holywell wards from Oxford East, dividing the city along the River Cherwell.

**3.123** There was opposition from Antony Atkins (BCE-17506), Jane Olds (BCE-29452) and others to moving Fringford, Launton, and Ambrosden and Chesterton wards to Henley and Thame, as these are much closer to Bicester, which is expanding. The size of the existing Banbury constituency makes this a necessity, in order to avoid much more significant disruption to the rest of the county. There was a suggestion from Jane Olds, to extend the Banbury constituency across the region boundary into South Northamptonshire; however, our assistant commissioners advised us

that they did not see a compelling reason for doing so, not least as it would not be helpful to the structuring of constituencies in South Northamptonshire. A counterproposal to retain Fringford in Banbury and Bicester (Elizabeth Wood, BCE-33196 and BCE-39371) would have removed the disruption for that ward, but would increase it in the Oxford West and Abingdon, Wantage, and Witney constituencies. Another counter-proposal (Jonathan Jordan, BCE-40336) put forward a separation of Banbury and Bicester, but this was reliant on changes to every Oxfordshire constituency except Oxford East. We received representations that, as the mix of larger communities within the existing Banbury constituency was unchanged under the Commission's initial proposals, it would be inappropriate to add Bicester to the name. We also received representations regarding the name of the proposed Henley and Thame constituency. Both towns are in the southern half of this constituency, which extends down the entire eastern edge of the county.

**3.124** There was opposition to moving Wallingford ward into the Henley and Thame constituency, in part due to the River Thames at Wallingford forming a natural boundary. An alternative proposed by Aaron Fear (BCE-30739) was to leave Wallingford in the Wantage constituency, instead creating an amended Oxford West and Abingdon constituency stretching to Kirtlington ward in the north, adjacent to Kidlington, and down to Marcham and Drayton wards in the south, adjacent to Abingdon, all of which would be linked by the A34 forming a 'spine' through them all.

**3.125** The assistant commissioners visited the area and observed the light-controlled single-track bridge that forms the only crossing from Wallingford across the River Thames to Henley. They considered this more of a barrier than a link. They also inspected the proximity and links that the rural wards of Marcham, Drayton, Wheatley, Garsington & Horspath, and Sandford & the Wittenhams had with both Abingdon and Oxford. Marcham and Drayton wards are very close to Abingdon, but the other three are more distant, with poor road links, and appear more similar in nature to wards further east, in the proposed Henley and Thame constituency.

**3.126** The assistant commissioners also visited the City of Oxford wards of Jericho and Osney, North, and St. Margaret's, to compare them to the Summertown and Wolvercote wards. Mr Fear points out that St. Margaret's is part of the area of Summertown and therefore fits naturally with the Oxford ward of that name. The assistant commissioners, from their visit, concur with this view, as well as the views expressed by the Labour Party and the Green Party (BCE-36874) that including Jericho and Osney ward in the easternmost of the two City of Oxford constituencies would be a better fit. The Labour Party saw it as it as uniting the centre of the city, better recognising local ties in both Oxford constituencies, and the Green Party observed that ' ... this is consistent with travel patterns, and the cultural differences between north Oxford and the rest'. The assistant commissioners observed that Jericho and Osney is of a very similar nature to the central Oxford wards, but that to travel from the centre of Oxford to St. Margaret's ward you must first pass through North ward.

**3.127** Accordingly the assistant commissioners recommended the adoption of Aaron Fear's counter-proposals for two revised Oxford constituencies. As one will now contain all but three of Oxford City wards and 87% of its electors, we agree with the assistant commissioners' recommendations that this constituency be renamed 'Oxford', and that the second constituency – containing Abingdon, the remaining three city wards (including St. Margaret's), and wards to the north of Oxford – be renamed 'Abingdon and Oxford North'.

**3.128** Although the assistant commissioners recognised the opposition to moving three wards from the edge of Bicester to Henley and Thame, they did not believe this could be resolved without substantial disruption across the county. They also considered that it would be inappropriate to change a constituency name where the mix of larger communities within it is unchanged, and recommended that the name remain as Banbury. We agree.

**3.129** The assistant commissioners believed that the rural nature of the wards of Wheatley, Garsington & Horspath, and Sandford & the Wittenhams mitigated against transferring them to the much more urban Oxford East (as per the Liberal Democrat Party's counter-proposal), or – particularly with poor road links to Abingdon – to Oxford West and Abingdon (as per our initial proposal).

**3.130** The assistant commissioners considered that Aaron Fear's (BCE-30739) counter-proposal addressed the objection to separating Wallingford from Wantage. It also retained the rural wards of Wheatley, Garsington & Horspath, and Sandford & the Wittenhams with the other rural parts of the Henley and Thame constituency, and respected the natural barrier of the River Thames. They therefore recommended revisions to this constituency in line with Aaron Fear's counter-proposal. As this constituency extends over the entire eastern area of the county, they also recommended that the name change to 'East Oxfordshire'. We agree to these recommendations.

# 4 How to have your say

**4.1** We are consulting on our revised proposals for an eight-week period, from 17 October 2017 to 11 December 2017. We encourage everyone to use this last opportunity to help finalise the design of the new constituencies – the more public views we hear, the more informed our decisions will be before making final recommendations to Government.

**4.2** While people are welcome to write to us on any issue regarding the constituency boundaries we set out in this report and the accompanying maps, our main focus during this final consultation is on those constituencies we have revised since our initial proposals. While we will consider representations that comment again on the initial proposals that we have not revised, it is likely that particularly compelling further evidence or submissions will be needed to persuade us to depart at this late stage in the review from those of our initial proposals, which have withstood intensive scrutiny of objections in the process of consultation and review to which they have already been subject. Representations relating to initial proposals that we have not revised and that simply repeat evidence or arguments that have already been raised in either of the previous two consultation stages are likely to carry little weight with the Commission.

**4.3** When responding, we ask people to bear in mind the tight constraints placed on the Commission by the rules set by Parliament and the decisions we have taken regarding adoption of a regional approach and use of local government wards discussed in chapter 2 and in the Guide. Most importantly:

- We cannot recommend constituencies that have electorates that are more than 5% above or below the electoral quota (apart from the two covering the Isle of Wight).
- We are obliged by law to use the Parliamentary electorate figures as they were in the statutory electoral register published by local electoral registration officers between December 2015 and February 2016. We therefore cannot base our proposals for this constituency review on any subsequent electorate figures.
- We are basing our revised proposals on local government ward boundaries (at May 2015) as the building blocks of constituencies. Exceptional and compelling evidence needs to be provided to persuade us that splitting a ward across two constituencies is necessary or appropriate.
- We have constructed constituencies within regions, so as not to cross regional boundaries. Particularly compelling reasons would need to be given to persuade us that we should depart from this approach.

**4.4** These issues mean that we encourage people who are making a representation on a specific area to bear in mind the knock-on effects of their counter-proposals. The Commission must look at the recommendations for new constituencies across the whole region (and, indeed, across England). We therefore ask everyone wishing to respond to our consultation to bear in mind the impact of their counter-proposals on neighbouring constituencies, and on those further afield across the region.

## How can you give us your views?

**4.5** We encourage everyone to make use of our consultation website, www.bce2018.org.uk, when contributing to our consultation. That website contains all the information you will need to contribute to the design of the new constituencies, including the revised proposals reports and maps, all the representations we have received so far during the review, the initial proposals reports and maps, the electorate sizes of every ward, and an online facility where you can instantly and directly submit to us your views on our revised proposals. If you are unable to access our consultation website for any reason, you can still write to us at 35 Great Smith Street, London SW1P 3BQ.

**4.6** We encourage everyone, before submitting a representation, to read our approach to data protection and privacy and, in particular, the publication of all representations and personal data within them. This is available in our Data Protection and Privacy Policy, at:

http://boundarycommissionforengland. independent.gov.uk/freedom-ofinformation-and-data-protection

### What do we want views on?

**4.7** We would like particularly to ask two things of those considering responding on the revised proposals we have set out. First, if you support our revised proposals, please tell us so, as well as telling us where you object to them. Past experience suggests that too often people who agree with our proposals do not respond in support, while those who object to them do respond to make their points – this can

give a distorted view of the balance of public support or objection to proposals. Second, if you are considering objecting to our revised proposals, do please use the resources available on our website and at the places of deposit (maps and electorate figures) to put forward counter-proposals which are in accordance with the rules to which we are working.

**4.8** Above all, however, we encourage everyone to have their say on our revised proposals and, in doing so, to become involved in drawing the map of new Parliamentary constituencies. This is the final chance to contribute to the design of the new constituencies, and the more views we get on those constituencies, the more informed our consideration in developing them will be, and the better we will be able to reflect the public's views in the final recommendations we present in September 2018.

# Annex A: Revised proposals for constituencies, including wards and electorates
