Overview & Scrutiny  
Committee 2021/22

I am pleased to present the Annual Scrutiny Report for the 2021/22 municipal year which summarises the work of my committee and its panels over the past year. It outlines our work, particularly on budget scrutiny.

It has been a very challenging year for the Council and for scrutiny itself with the removal of dedicated scrutiny resource in Our Futures, which has limited the scope of work we were able to carry out. Scrutiny needs to be properly valued and resourced to be effective and I hope this issue will be addressed for 2022/23.

Our focus this year has been to carry out the most extensive scrutiny of budget and savings proposals Slough has ever undertaken. This was achieved by dedicating eight of our eighteen meetings through the year to reviewing every directorate savings proposal to ensure they were deliverable and proportionate.

Other highlights included our constructive meeting with Police & Crime Commissioner and Chief Constable and extensive pre-decision scrutiny of key issues such as the A4 bus lane, closure of day centres and library services, as well as prioritising performance reviews of services such as revenues and benefits and housing repairs.

I have sought to ensure our meetings are positive and forward looking which give Members the opportunity to ask the key questions and hopefully contribute to better decision making. By regularly attended Cabinet meetings I've sought to strengthen the links between scrutiny and the Executive to make sure our voice has been heard.

I would like to thank all the members of the Committee and scrutiny panels for their work. There is much still to do and I hope we have laid a platform during this transitional year to build the much needed effective scrutiny function this Council needs in the future.

### *Highlight – budget consultation*

- The early opportunity to scrutinise the budget position and savings proposals was welcomed. There were a total of 8 meetings dedicated to scrutinising the budget proposals across the Council and individual directorates.
- The Committee reviewed corporate services and raised concerns about issues including: the contract procedures and costs of the externalised procurement function; the weaknesses in subsidiary company governance; and the robustness of plans for debt recovery.

- The Committee generally agreed the corporate savings proposed for 2022/23, but also emphasised the importance of ensuring adequate resources to bring key corporate services, including finance, IT and HR to the required standard to support the Council to deliver its services and wider strategic plans.

#### **Meeting: Tuesday 8<sup>th</sup> March 2022**

- The Committee scrutinised all the budget reports prior to Cabinet and Council approval. The Lead Member and Director of Finance were questioned on the overall budget strategy and robustness of the savings plans.

*Highlight – budget scrutiny*

## **Meeting: Thursday 11<sup>th</sup> November 2021**

- The Panel reviewed the People directorate savings proposals and large parts of the discussion focused on the risk of the Council not meeting its statutory duties with respect to some adults and children's services.
- The SEND inspection was raised and Members emphasised the importance of ensuring robust action was taken to address the weaknesses identified.
- Members highlighted the risk that some service reductions, e.g. children's centres, could lead to pressures elsewhere in the system. A comprehensive plan was needed to manage these risks so that sustainable savings could be delivered.

## **Meeting: Monday 31<sup>st</sup> January 2022**

- An update was provided on the Provider Services Review and Members were assured that the service users had all been reassessed and the planned savings had been achieved.
- The response to the SEND inspection report would require adequate resources to be put in place and this was supported by the Panel.
- The Panel also discussed demand pressures, placement costs and the work taking place on the permanent recruitment of social workers to seek to reduce agency spend.

# 9. People Scrutiny Panel

*Areas scrutinised in 2021/22 by the panel:*

# 10. Place Scrutiny Panel

## *Highlight – budget scrutiny*

### **Meeting: Wednesday 1<sup>st</sup> December 2021**

- The savings proposals in the former Place directorate were reviewed and Members focused on two key themes – generating additional income and service reductions in some areas.
- The Panel considered how savings to street cleansing and grass/hedge cutting could be achieved whilst maintaining acceptable service levels.
- Members agreed with the proposal to generate income through renting space in buildings and broadly accepted the increased waste charges on the basis it was not expected this would increase fly-tipping.

### **Meeting: Wednesday 12<sup>th</sup> January 2022**

- Consideration was given to the emerging Place directorate restructure and the Panel requested a further update report to a future meeting.
- The Panel raised some concern about the proposed changes to bulky waste discount charges, although it was recognised that this would bring Slough more into line with other nearby local authorities. The Panel requested that the Director give further consideration to the eligibility criteria for discounted collections prior to any final charging structure being adopted.

This work, and the annual members scrutiny survey, highlight a number of areas for improvement:

- Improved work programming which is aligned to the Council's recovery and improvement plans and the Cabinet forward plan.
- Building on the enhanced scrutiny training delivered in 2021/22.
- Continuing the good practice of full and detailed budget scrutiny including monitoring the delivery of 2022/23 savings and proposals for 2023/24.
- More pre-meetings and preparation by restoring dedicated officer support for the scrutiny function.
