Informal Session 4

Title: Understanding the Health and Wellbeing of Our Local Population to Inform a Refresh of the Slough Wellbeing Board Strategy

Overall Aim of the Session: Generate a collective understanding of what local data and insight tells us about the need of our local population, to steer the focus of the 23-27 Slough Wellbeing Strategy, recognising the impact of factors including Covid-19, the cost-of-living crisis, and the Ukraine conflict etc.

Session Details:

- Overview of local data and insight for Slough re: local profile and need.
- Discussion re: the priorities for the Wellbeing Board given local profile & need – consideration to be given to the interplay with the Integrated Care Strategy.
- Following session 3, the strategy will be developed, and a draft compiled for the November 22 informal session.

Timing of the Session: The timing of this session in December 22 allows for inclusion of the most recent census data to support in informing the priorities of the partnership. Furthermore, it is timely, with the Frimley Integrated Care Strategy anticipated to be complete by the end of December 22; government guidance states: *“Upon receipt of an integrated care strategy, the Health and Wellbeing Board must prepare a ‘joint local health and wellbeing strategy’ that sets out how the local authorities, integrated care board and NHS England will meet population needs in that area. However, if the Health and Wellbeing Board does not need to prepare a new joint local health and wellbeing strategy if, having considered the integrated care strategy, they consider that their existing joint local health and wellbeing strategy is sufficient”*.
