Questions received from Councillors and members of the public for Cabinet, 19th June 2023

Item3: Refresh of the Council's Corporate Plan

Member Questions:

Councillor Mann

1. "Do you agree that the overarching purpose of the council's corporate plan should be focused on closing the health gap by focusing on children? Whilst I accept that this is an admirable intent, and should certainly be one of the strategic priorities within the plan, do you agree that the overarching purpose should be one that excludes so many within our town, and is not something that is wholly or even 50% dependent on the activities of the council?"

Councillor Hulme:

2. "Can the Leader explain why the refresh of the councils' corporate plan consultation will only run for 6 weeks and that the consultation with residents will only take place using the council's Citizen Space platform?"

Councillor Matloob:

3. "The Draft corporate plan, under Approach - has point Resident focused -Serve the people of Slough first and foremost: responding to their concerns, ensuring their views are heard and delivering on the issues that matter most to them, and on the report under 2.10 proposed that a consultation be run for a period of 6 weeks if we council truly wants to ensure resident views are heard then more than 6 weeks are needed?"

Councillor Ajaib

4. "2.10 Consultation run using the Citizen Space platform, will all residents have access as there is a digital divide in Slough still and how will the cabinet Serve the people of Slough first and foremost if they are not given an opportunity to take part in consultation?"

Public Question: None submitted for item 3.

Item 4: Berkshire Community Equipment Service (BCES) procurement

Member Questions: None submitted for item 4.

Public Question:

From Mr Steven Gillingwater to Councillor Wright

1. "To ask whether the council has made any impact assessment on the current backlog of OT assessments caused by the last administration and to what extent this will cause further distress and disruption to the residents who depend on this service?"
