

Paper Petition Details

Parking Issues at Elmhurst Road, SL3 8LT

Serious parking issues on Elmhurst Road, residents permit scheme in place, but regularly used by non-residents. Lack of warden control results in the scheme being pointless. More visible enforcement required on the road such as cameras that deter illegal parking.

Not enough spaces for residents to park. Each property has x2 permits permitted. Therefore, spaces needed back at beginning of road (by Subway). Potholes in the road, parking on double yellow lines and lack of clear signs and marked bays. Unsafe access into the road due to frequent large lorries delivering and parking illegally.

This petition was received on 22nd May, 2024.

This petition was passed to the Network Lead – Parking, Highways & Streetworks on 30th May, 2024.

This petition was responded to by the Senior Parking Engineer on 12th June, 2024.

Council Response

Thank you for submitting the above petition, it has been forwarded onto me to respond to.

I am aware a resident meeting took place on Tuesday 4th June 2024 in which all these issues were discussed and a further meeting will be taking place in 8 weeks time.

As a result of the issues raised we have increased enforcement and the relevant sign has been ordered. As soon as this has arrived, we will make the necessary arrangements to ensure it is erected. In addition to this I will be doing a site visit shortly to check the lining and the potholes you have mentioned.

Finally, we will also be liaising with the businesses regarding all the concerns that have been raised.

I hope this information helps.
