

Slough Borough Council

Report To:	Licensing Committee
Date:	3 March 2025
Subject:	Non-Executive (Licensing) Fees and Charges
Chief Officer:	Tessa Lindfield, Director of Public Health Pat Hayes, Executive Director, Regeneration, Housing & Environment
Contact Officer:	Russell Denney-Clarke – Trading Standards and Licensing Manager Kam Hothi – Network Lead – Parking, Highways & Streetworks
Ward(s):	All
Exempt:	NO
Appendices:	Appendix A – Non-executive fees and charges

1. Summary and Recommendations

- 1.1 This report seeks approval of fees and charges for non-executive functions where the Council has the ability to levy a charge. .

Recommendation:

The Committee is recommended to approve the fees for non-executive functions as per Appendix A for the year 2025/26.

Reason: Fees and charges for non-executive function must be approved by the Licensing Committee and set for the coming financial year.

Commissioner Review

The income from fees and charges helps to manage demand and cover costs for providing services. Effective management of discretionary fees and charges will ensure that both the process and the fees themselves are transparent, fair, equitable and affordable. Price sensitivities of individuals and groups, supported by benchmarking where available, should be understood so that charges can be set appropriately to deliver the level of services necessary to achieve the council's agreed objectives.

2. Report

Introductory paragraph

- 2.1 This report outlines fees and charges which must be approved by the licensing committee. Fees and charges are set in accordance with the [Slough Fees and Charges Framework](#).

Options considered

- Option 1** To seek formal approval of the Fees and Charges outlined in this report. **This is recommended.**
- Option 2** To not approve the Fees and Charges outlined in this report. **This is not recommended.** It would mean that the costs of providing the services against which the charges are made are increasing in line with inflation, and the fees and charges applied are not, which would have a negative budgetary impact and lead to taxpayers funding part of the cost of the service.

3. Background

- 3.1 The existing framework sets out the following key principles for the setting of fees where fees and charges can be levied on service users and where permissible within relevant legislation:
- a) Users pay for service at full cost recovery;
 - b) A strategic and informed approach to subsidy and concessions;
 - c) Adopting a strategic approach to new charges;
 - d) Appropriate communication and engagement with service users;
 - e) Coherence with broader efficiency and framework objectives; and
 - f) Fees and charges will be subject to systematic and in depth review.
- 3.2 The approaches to setting fees and charges are described within the framework and summarised as follows:
- a) Full cost recovery. The council in most cases will adopt the Chartered Institute of Public Finance and Accountancy definition of total cost to calculate the fee or charge;
 - b) Full cost recovery with concessionary discounts;
 - c) Subsidised cost;
 - d) Nominal – in that the service is provided and funded through general taxation; and
 - e) Prescribed charging in that fees and charges are set nationally in accordance with appropriate legislation.
- 3.3 Whilst fees and charges are set annually, there is provision within the council's constitution to enable in year decisions taken by officers which are limited to inflation plus 3%.
- 3.4 The fees for non-executive functions should be set at the cost for providing the function and in some cases there are legislative provisions setting out the methodology and use that can be made of such fees.. Some fees are set by central government and these cannot be changed by the committee. These are also outlined within the appendices and explained in further detail in the legal Implications section.

Changes to proposed fees and charges

- 3.5 For fees and charges that are nationally set there is no increase in the current fees and charges set for the current financial year. For all other fees and charges, an increase is expected to be at full cost recovery as set out in the framework rounded

up to the nearest 10 pence where practical to do so. A full list of fees and charges can be seen in appendix A.

3.6 The next section provides a summary of proposed changes to fees and charges which are not statutory prescribed.

- a) **Skip Licences** – these were significantly increased last year and fees and charges set at full cost recovery and therefore a 0% increase is proposed;
- b) **Cherry picker licence and crane licences** – a 2.5% fee increase is proposed;
- c) **Hoarding and scaffolding licences** – new fees were introduced in 2024/25 and a 0.0% increase is proposed as these fees are deemed to be set at full cost recovery;
- d) **Sex establishments** - It is considered that there is already full cost recovery in place for Sex Establishments. As such no increase is proposed;
- e) **Street trading / ice cream sellers** - The rationale for there being no increase in license fee for these areas is that it might push fees beyond what the market might bear, and that there would be a loss in income. This would be particularly counterproductive in areas that the council wishes to encourage, for example for a vibrant Town centre;
- f) **Ear piercing, electrolysis, tattooing and acupuncture** – Amendments to this licence have been proposed at a 2.0% fee increase;
- g) **Scrap Metal** - It is considered that there is already full cost recovery in place for scrap metal and as such there is no scope to increase the current fee. As such no fee increase proposed. **Combination driver licencing and licence** – dependent on the licence type a fees increase has been proposed of between 0.0% and 22.7% to ensure that the service has set fees at fully cost recovery; the fee which has increased by 22.7% now includes the mandatory knowledge test for new drivers only;
- h) **Vehicle licencing** – 1 year and 5 year licences have been set at broadly 2% across each licence type; and
- i) **Paid for licencing type** – the hourly charge has been set at a 2.1% increase to ensure full cost recovery and be in line with other service hourly rates e.g. Primary Authority.

4. Implications of the Recommendation

3.1 *Financial implications*

3.1.1 Financial implications have been set out in this report including the expectation that fees and charges must be set in accordance with the council's existing framework and where applicable on a full cost recovery basis so that it does not impact on the council tax payer. Where fees are nationally set there has been no change to budgets as national charges have not changed for 2025/26. Demand for services has assumed to remain static for 2025/26.

3.2 *Legal implications*

3.2.1 As noted earlier, a number of fees and charges are prescribed by statute (eg. Licensing Act 2003 (Fees) Regulations 2005), as a set amount (in which case it is noted as 'statutory prescribed' in Appendix A). For other fees and charges the relevant legislation may provide that a charge can be made for providing the service but the amount of the charge is discretionary, within the remit of the legislation,

often limited to cost recovery only, or a reasonable amount, or within a range/maximum amount. The authority therefore sets the amount of the charge accordingly. These are noted as 'statutory discretionary' in Appendix B. Some of the regimes in Appendix B are covered by the European Services Directive and the Provision of Services Regulations 2009, which implements the Directive. This requires that fees charged in relation to authorisations must be reasonable and proportionate to the cost of the process, and the European Court of Justice ruling in the *R on the application of Hemming v Westminster City Council case [2017] UKSC 50* which confirmed that a fee covering the administration costs of processing an application should be charged separately from the charge (to successful applicants) for enforcing the regime. It is not possible to charge one fee at the outset and then refund unsuccessful applicants the enforcement part of the fee. The two must be charged separately. The Local Authorities (Functions & Responsibilities) Regulations 2000 sets out what fees and charges cannot be set by the Executive (i.e. Cabinet) as the functions to which they relate are non-Executive functions. The fees and charges in Appendix A are those that Council should set (through this Committee), with the exception of those which are prescribed, and therefore for information only.

3.2.2 Under Part 3.4 of the Council's Constitution, the Licensing Committee has responsibility to approve fees and charges for the following functions where they are not executive functions or reserved to Council: private hire and hackney carriages, the Licensing Act 2003, Gambling Act 2005, food safety and control, animal health, welfare, safety and control and other licensing and registration functions including caravan sites, markets, street trading, scrap yards, sports grounds, special treatments and sex establishments.

3.3 *Risk management implications*

3.3.1 There is a risk that increasing fees and charges in line with inflation may have a negative impact on service uptake. This will be monitored and reported on through the normal budget monitoring process. This risk must be balanced against the risks of an increasing budget gap as costs increase without a corresponding increase in fees.

3.4 *Environmental implications*

3.4.1 None

3.5 *Equality implications*

3.5.1 Section 149 of the Equality Act 2010 created the public sector equality duty. Section 149 states:-

(1) A public authority must, in the exercise of its functions, have due regard to the need to:

(a) eliminate discrimination, harassment, victimisation and any other conduct that is prohibited by or under this Act;

(b) advance equality of opportunity between persons who share a relevant protected characteristic and persons who do not share it;

(c) foster good relations between persons who share a relevant protected characteristic and persons who do not share it.

The relevant protected characteristics are age, race, disability, gender reassignment, pregnancy and maternity, religion or belief, sex and sexual orientation. An initial Equalities Impact Assessment (screening) has been conducted and has found no adverse impacts on any of the protected groups.

3.6 *Procurement implications*

3.6.1 None

3.7 *Workforce implications*

3.7.1 None

3.8 *Property implications*

3.8.1 None

4. Background Papers

Appendix A – List of current (2024/25) and proposed (2025/26) fees and charges

Fee Description 1	Fee Description 2	Current Charge	Proposed Charge	% Increase	Basis For Charging	Legislation Giving Power To Charge	Committee Decision?
